

Thank you for your interest in the Bach Flower Remedies.

How to use

Prepare a Bach treatment bottle by adding 2 drops of each remedy (up to 7 remedies) into a 30ml/1oz mixing bottle and fill with spring water. If you use Rescue Remedy you use 4 drops.

As a preservative (optional), add 1-2 tsp. of brandy, apple cider vinegar or vegetable glycerin into the treatment bottle.

From the treatment bottle take 4 drops (or 2 sprays), 4 times per day until you feel better, or add 1-2 Drops of each of the needed remedies in a glass of water and sip at intervals.

The remedies can also be taken undiluted either in the mouth or on the skin as often as needed.
