

BOLFF HEALTHCARE SERVICES

**Staying At Home With High
Quality Private Live-in Care**

ABOUT US

At Bolff Healthcare services we believe home is the most comfortable place one can be so we bring care to your home when you need it the most.

We provide high-quality live-in care service to you or your loved one. A professional Carer will move in with you to provide care and companionship round the clock. Care will be provided on a one-to-one basis and is personalised according to your care needs.

We will match you with a Carer who is compatible with and fully understands your care needs. They will ensure that our high standards of care are always met.

OUR SERVICES

▼ PROVIDING SENSITIVE AND DISCREET PERSONAL CARE

This might involve task-oriented parts of caring for someone, such as bathing and dressing, as well as those that improve self-esteem, such as having your nails or hair groomed.

▼ MEAL PLANNING AND COOKING

Your live-in caregiver will plan and prepare meals based on your tastes and nutritional needs, and they will be served at a time that is convenient for you.

▼ COMPANIONSHIP

Our carers will provide company while respecting your privacy. We make certain that a properly matched caregiver has similar values and interests with you in order to make life more fascinating, exciting, and pleasurable, while also being there for you to support your emotional and physical needs.

▼ SECURE MOBILITY IN AND AROUND THE HOME

We will provide direction and expert advice on what equipment can help increase safe movement and mobility around your home while reducing falls.

OUR SERVICES

▼ HOUSEHOLD RESPONSIBILITIES

This involves cleaning all rooms and vacuuming throughout the house to maintain the cleanliness and tidiness you desire.

▼ TAKING CARE OF YOUR MUCH-LOVED PET

A carer would gladly assist you in caring for your pet, including taking dogs for regular walks.

▼ MEDICATION MANAGEMENT AND ADMINISTRATION

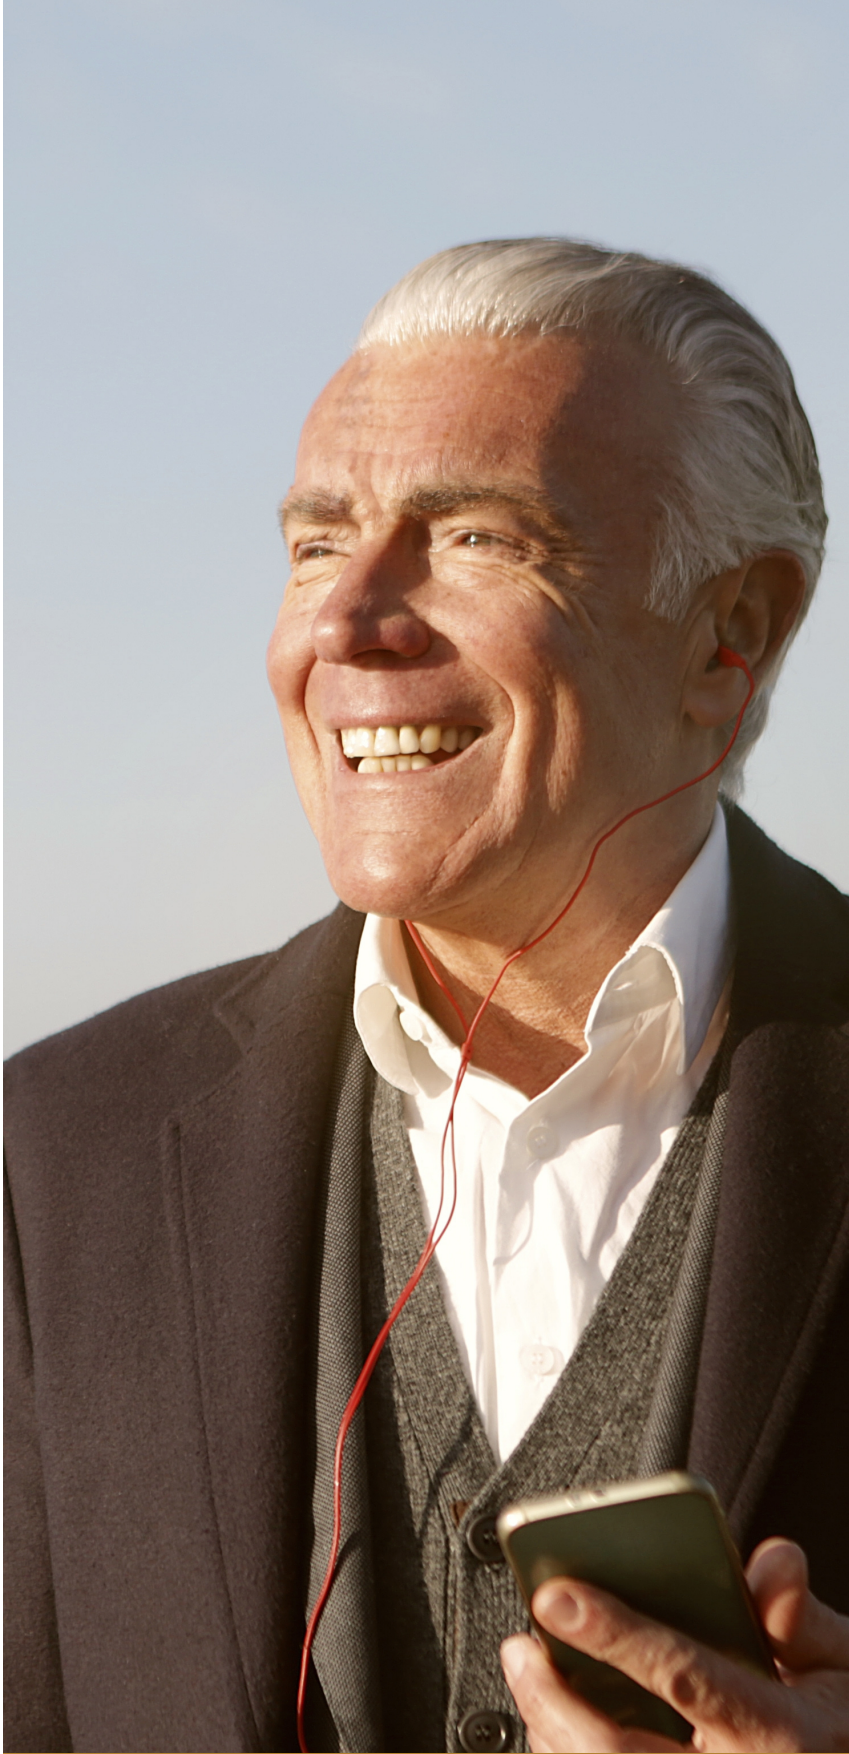

Our professional caregivers have received medication management training to guarantee that all drugs are managed proactively and effectively. Prescriptions will also be collected from the drugstore.

▼ NURSE-LED SPECIALIST AND EXPERT CARE

We provide nurse-led care, which means that your live-in carer is trained to monitor and identify changes in your health, allowing you to respond effectively and avoid avoidable hospitalisations. We monitor and measure health outcomes as part of our commitment to providing high-quality home care services. This allows us to continuously improve the care we give.

▼ HELPING WITH SOCIAL ARRANGEMENTS IN THE HOME

Your carer will make sure you may invite friends over for socialisation and festivities, giving you the support you need to relax and enjoy yourself without having to worry about organising anything.
