Relevant experience

Product UX designer - Somnox

Apr 2021 - Present

As an in-house designer at Somnox, I'm responsible for the interaction and visual design of all Somnox products.

Visual designer - Somnox

Nov 2019 - Apr 2021

I designed the new visual identity for Somnox and am responsible for creating all brand assets (including the packaging and website).

Industrial designer (internship) - Dental robotics

Sep 2018 - Feb 2019

My primary responsibility was conducting user tests with their physical product. I was also involved in engineering the product and preparing it for manufacturing.

UX designer (internship) - Bitware Tech EU

Sep 2017 - Dec 2017

I was responsible for conducting user tests (mainly card sorting sessions) and the development of UX deliverables such as task flows, wireframes, and personas.

Various freelance web & graphic design projects

Apr 2016 - Present

I help small businesses such as starting webshops and restaurants develop their brand, website, and marketing assets.
