- Toyota Motors

**Duration: 9 days
including travel**

All trainings are possible to arrange as company specific tours where we can adjust to your demands. We can also adjust to branch specific themes for example Healthcare, Construction, RD & E, Supply Chain, Process industry, TPM, etc.

The training purpose is to understand how leaders in Lean organizations act, both operationally and strategic. The training includes five intensive days of management discussions, study visits and Japanese cultural experience, along with teamwork and networking.

Our hosts in Japan will guide the group through operational and strategic management work for leaders at different level. Time will be divided between classroom and Gemba visits.

This training is a unique product, developed by GPS (Gifu Autobody/ Toyota Training Center) and C2U Group.

How can a week look like?

Saturday: Travel day/Arrival day

Flight to Japan.

Sunday: Arrival day/ Tour Opening

The training formally starts in the afternoon with an introduction to the week followed by a seminar about Japanese society, culture and business environment. The day ends with a common dinner.

Monday: Training

A Japanese senior manager will lead us through the way of thinking regarding leadership & management. Structure vs culture. We will also get a deep-dive into Hoshin Kanri and how powerful the technique of true strategy deployment is. In the afternoon we will make the first plant visit. We will be given practical examples and have time for Q&A and discussions. Teamwork. Common dinner.

Tuesday: Training

Next day, we will study shop floor management and way of working with quality control and cost control. Operational work on an hourly and daily level. A Kaizen case is presented to us. We will visit another plant and then end the day with Q&A and reflections. Teamwork. Common dinner.

Wednesday: Training

This day will increase our knowledge of the role of support functions and supplier development. We will study an improvement case, connected to the yearly policy (Hoshin). Q&A and reflections. Teamwork. Common dinner.

Thursday: Training

A full day of study visits. What are the elements needed to drive and run a result-focused way of working. Q&A and reflections. Teamwork. Common dinner.

Friday: Conclusion

The final day ends with a session of top management role and responsibility. We do final reflections and Q&A to summarize the week. We leave for Kyoto in the afternoon.

Common farewell dinner in Kyoto.

Saturday & Sunday: Kyoto

Free day/s in Kyoto. Departure or possibility to extend stay.
