18 June 2020

Dear Parent/Carer/Year 6

After the announcement from the Welsh Government that schools are to restart from 29th June until 24th July, we are busy planning and preparing Cantonian High School to reopen, with the emphasis on the safety of pupils and staff. However, the current guidelines regarding school opening and social distancing have restricted our planned transition programme and as a result, we will not be hosting any Year 6 visits to Cantonian before September.

We will, however, be providing an online programme that will include resources, information and support to prepare the pupils for September. This programme will centre around a virtual Transition page which will provide Year 6 with access to a secure webpage and Google Classroom, where they will find:

- A variety of activities and important information about the school, including videos and a tour of the school
- An opportunity to 'meet' key staff including Form Tutors
- Our Transition brochure
- Web links and contact information

I will write to you again with instructions on how to access this programme.

In the meantime, we will continue to contact you via phone and/or email, as well as providing information on the school's website and Twitter account.

I look forward to communicating with you over the coming weeks.

Yours sincerely

MR G H DAVIES

Head of Year 7

A BRIGHTER FUTURE
