

Full Stack Developer

Calgary, Alberta, Canada. Technology. Full time

Description

About CanzTech

Our mission is to disrupt the Information Technology world by creating innovative software products that shape and redefine Global Business Processes for all companies regardless of size, location or market capitalization. At CanzTech, we are growing. To support the rapid growth of our business, we are seeking a highly motivated Full Stack Developer to join our IT Department.

Our Team

You will be working with a highly-skilled, highly-productive team of scientists, developers, programmers and engineers. We value open collaboration between diverse skill sets. Our tech stack includes C++, Visual Studio, ADO, GitHub, AWS and Azure Pipelines. Our Scrum process includes two-week sprints, daily standups, sprint reviews, sprint planning, and retrospectives. Your Scrum team includes 4-6 developers and testers, and collaborates closely with subject matter experts from a research team and with other stakeholders.

We're looking for someone who enjoys:

- A team-oriented approach to problem solving.
- Being detail-oriented and demonstrates the ability to follow through on projects.
- Ability to learn new technical concepts and systems quickly.
- Being a self-starter, self-motivated, with a business mindset.

Your Responsibilities include:

- Write, design, write, modify, integrate and test Web-site related code
- Create and optimize content for Website using a variety of graphics, database, animation and other software
- Consult with our customers to develop and document their website requirements
- Develop Website architecture and determine hardware and software requirements
- Plan, select and establish information for addition into websites and design the appearance, layout and flow of the Website
- Research and appraise a variety of collaborating media software products
- Lead and co-ordinate multidisciplinary teams to develop Website graphics, content, capacity and interactivity
- Conduct tests and perform security and quality controls

- Plan, design, write, modify, integrate and test Web-site related code
- Identify and communicate technical problems, processes and solutions
- Assist in the collection and documentation of user's requirements
- Maintain existing computer programs by making modifications as required

Qualifications

- Bachelors Degree in Computer Science or equivalent experience or programs
- (such as boot camps, learning programs, self taught with relevant experience, etc.)
- Experience with modern JavaScript development
- Demonstrated ability to create clean, expandable and scalable code across the entire technology stack (front, back, and everything in between)
- Effective verbal and written communication to successfully work with all levels of the organization
- Excellent time management and organizational skills and the ability to work independently and in a team environment
- Excellent work performance and attendance

Benefits

At CanzTech, we value great people. Working at CanzTech, you'll not only be part of an amazing team and a fast-growing company, you'll get:

- Training & Development Opportunities
- Competitive salary
- Opportunity to be part of a dynamic and highly motivating team in a growing company.
- Development opportunities where your input makes a difference. A competitive compensation package.
- Employee perks such as discounts from suppliers on various products and services such as insurance, wireless bundles, travel, and much more.

Next Steps

At CanzTech, our corporate culture is very important to us. As part of our interview process, we'd like to get to know more about you. Prior to meeting with the hiring manager, we will send a couple of questions from the manager to selected candidates with a link to a video recording which only our in-house recruiter and hiring manager will see. While we recognize the one-way video may not be the preferred interview style, compared to an in- depth initial conversation, it is meant to show us how you think through problems rather than be impersonal. We appreciate your interest in joining CanzTech.

Inclusion + Diversity

In addition to being dedicated to building a workforce that reflects diverse talent, we are committed to fostering an inclusive and accessible experience.

Moreover, CanzTech does not discriminate on the basis of race, sex, color, religion, age, national origin, marital status, disability, veteran status, genetic information, sexual orientation, gender identity or any other reason prohibited by law in the provision of employment opportunities and benefits.

How to apply

- If this sounds like the role for you, apply today with a covering letter and CV. Just email hr@canztech.com with your resume and cover letter, and we'll take it from there.
- Internal applicants please inform your manager/supervisor of your interest in this role before submitting your application.
- External Search being conducted co-jointly with this internal posting.
- This vacancy will remain open until a suitable candidate is found.
- Application will be treated with confidentiality.
