- Amongst my objectives for the last year were the following

Encourage Inter agency communications
Economic development
Improving Community Council visibility in the Strathard

I would sum up the last year as plenty done and much to do I am delighted that our support for projects such as the Strathard Business Hub, The Business Development officer project, creating a new website, twitter account and engaging with all the relevant government, public , key stakeholders in Strathard and beyond has really started to deliver . These projects have seen over £ 100,000 in public funding for the area with the objective of assisting job creation and regeneration.

I would like to thank my fellow community councillors for the incredible dedication to projects like the Pensioners Christmas Party, resilience and roads through what has been a challenging year from a weather perspective. Our capacity and reach needs to grow as we face the years ahead with development and planning on the agenda we have a critical role to assist the community with understanding the processes.

With elections in the Autumn of 2018 for the next Community Council term I feel a duty to reach out to interested parties in the community to ensure that we can continue to attract new talent.

We have really refreshed our engagement with Stirling Council , National Park, Forestry Commission and Scottish Water amongst the presentations, we have also re-aligned a very positive relationship with the Community Trust.
