

About Danish cavalry 1932-1940, Part 4 - Supplement 1

Pictures from the Jutland Dragoon Regiment 1939 - 1940

The armored car squadron at the Jutland Dragoon Regiment in 1939.

The picture shows FP 7 and 8 as well as FP 6, as well as a Ford Thames 1939 lorry.

The photo thus shows that the Jutland Dragon Regiment at this time had the older experimental armored vehicles, even though the FP 6 had the status of a training vehicle.

The picture series originates from Dragonavisen Nr. 1/1993, who had received the pictures from dragon Børge Eriksen, Kolding.

The motorcyclist squadron (3. Cyklisteskadron) in 1939.

The picture was taken at Vester Alles Kaserne in Århus and shows (from left) officiant Hansen (mechanic), chief officiant Bjerre Nielsen and rider master Feddersen (squadron commander).

Parade on the occasion of the 90th anniversary of the Riders' Encounter on Århus Field on 31 May 1849.

Århus Municipal Hospital can be seen in the background.

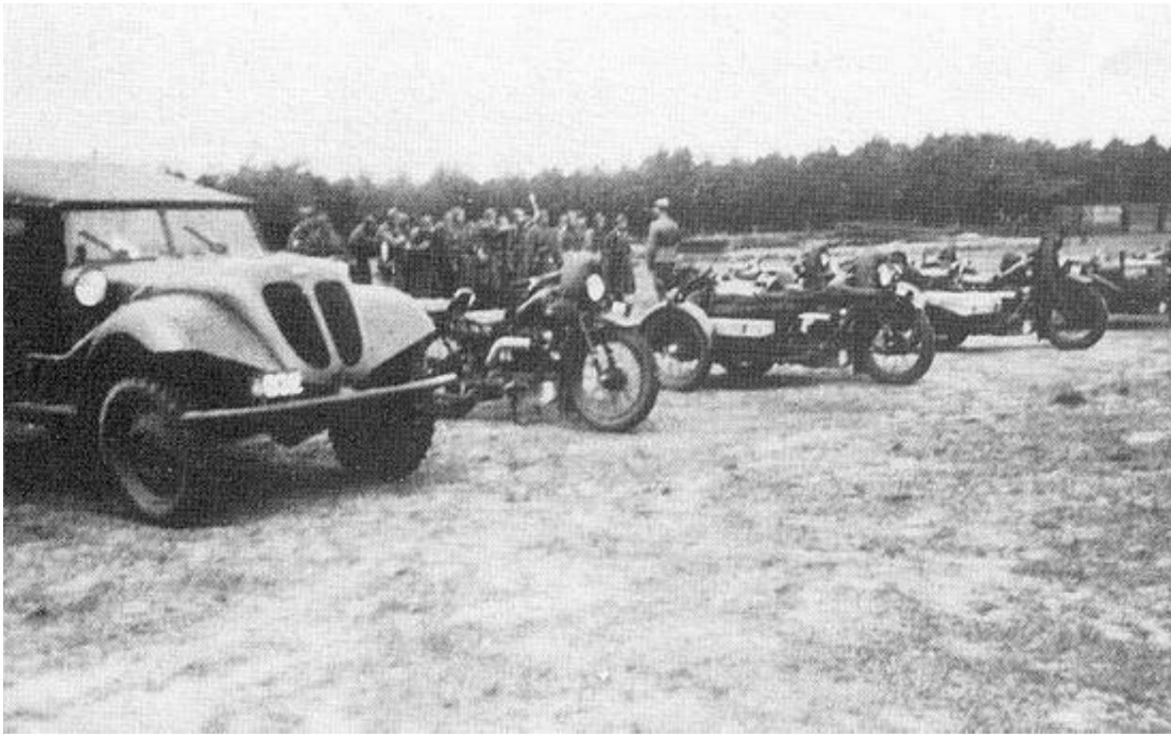

Exercise with the motorcycle squadron at Laurbjerg on 8 April 1940.

Dragon Børge Eriksen can be seen in the back seat.

The shooting squadron in Oksbøl.

The 20 mm machine gun on the right in the picture is shown on the transport wheels which were used when the gun was not mounted on e.g. cannon sidecar.

The guard or motorcyclist squadron in Oksbøl 1939.

The picture shows one of the regiment's Tempo cars, a solo motorcycle and at least one cannon motorcycle.

I find the series of images quite interesting and it somewhat fills in Part 4's limited contemporaneous image material.
