

Product Overview

A powerful commercial Automatic Dishwasher Detergent formulated to remove tough grease, stains, and residues, ensuring spotless, hygienic and sparkling dishes.

Key Features

- High grease-cutting power to tackle heavy food soils, grease, and baked-on residues common in commercial kitchens, ensuring spotless results in one wash cycle.
- Low-foaming formula designed specifically for commercial dishwashers to prevent excess foam, which can interfere with machine operation and rinse performance.
- Contains water softening agents or chelators to prevent scale build-up and spotting, even in areas with hard water.

Directions For Use

Always follow the machine manufacturer's instructions. Designed for use with automatic dosing equipment. Insert the dosing tube into the detergent container and set the concentration according to the manufacturer's instructions. The required dosage may vary depending on local conditions. Ensure the rinse cycle operates at the correct temperature.

Dilution guidelines: **Light Soiling:** 1:300 parts water

Heavy Soiling: 1:200 parts water

To ensure optimal performance, regularly maintain the water softener. Clean filters frequently to remove any buildup of debris. For best results use with Cleanux Rinse Aid.

Caution: Not suitable for hand dishwashing.

Safety & Handling

WARNING

Keep out of the reach of children.

Causes severe skin burns and eye damage. Do not inhale vapour/spray. Wear protective gloves & clothing, eye & face protection.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation persists, seek medical advice.

Do not ingest. **IF SWALLOWED:** Rinse mouth thoroughly with water. Give plenty of water to drink.

IF ON SKIN: Rinse immediately with plenty of water and remove all the contaminated clothing.

AUTO DISHWASH DETERGENT

Storage & Shelf Life

Store in a cool, dry place. Ideal storage temperature is between 5°C and 25°C.

Keep the container tightly closed in a well-ventilated area to prevent interference. Store away from direct sunlight, heat sources, and open flames. Do not allow the product to freeze.

Do not mix with other cleaning products and chemicals. Avoid contact with Aluminium and its alloys. Dispose of contents/ container in accordance with national regulations.
