

# Audio & Visual facilities available at the Crematoriums

*These are available at Hull, Haltemprice and the East Riding Crematorium*

## MUSIC

Crematoriums use an online music library, you can choose anything you like providing your choices are commercially available. Speak with us or your Minister about your choices. We must upload your music a few working days ahead of the service. **Under NO circumstances** must you ask for anything that you have found on **YouTube** or other such platforms. Music on YouTube cannot be purchased and we are unable to upload these on any crematorium system and we cannot use CD's and tapes.

## OWN MUSIC

You can use your own recording to be played in the service, i.e. a family member playing the piano. This must be an MP3 file and has to be emailed to us so we can upload it.

## ORGAN

There is an organ available but a freelance organist must be hired in advance. The current charge is £ 60.00 to £ 90.00\* (subject to availability)

## STATIC PHOTO

All crematoriums have large screen TVs mounted on the wall where a single static photograph can be displayed throughout the service.

To do this we need a photograph from you as soon as possible

- The original photograph can be handed to us so we can scan it.
- The original digital photograph can be emailed to us.
- Email format – Jpeg is preferred – up to 4 mb works best
- iPhone gives you 4 options,  
Choose original size for best results.

This is the preferred orientation of your photograph (but not essential.)

Haltemprice - Portrait

The East Riding and Hull - Landscape

## **VISUAL TRIBUTES**

- The Crematoriums offer a professionally made slide show set to your chosen music track.

During the service you can opt to have a slide show with up to 25 photographs set to a piece of music. In the service, at an agreed point, the static photograph, if chosen is replaced with a professionally made photo tribute set to your chosen music. Once the music ends, the slide show reverts back to the original static photo. Ideally, for 25 photos your music track needs to be at least 3 minutes long.

These photos must be emailed to us as soon as possible in the same format as the static photo.

Each photograph has to be sent in a separate email and listed as 'Surname' + 1,2,3, 4....24,25. This is the running order that will be displayed on the screen

Please try and use the orientation as listed on the previous page wherever possible.

## **LIVE BROADCAST and RECORDED SERVICES**

The funeral service can be live streamed via the internet.

The funeral service can be live streamed and downloadable for 28 days

## **FEES AND CHARGES – all these charges are made by the relevant crematorium\***
