## Rules for walking around the military range.

The route will be a mix of a dirt road and normal road. The route will be marked with “wind markers” at regular intervals and where there is a turn on the road. You must **UNDER NO CIRCUMSTANCES** walk into the shooting area. **This can potentially stop the entire competition.**

It is also **your responsibility** to make it to all the stages before 1800 on Saturday and 1400 on Sunday. This is very easy done in a normal walking pace. Failure to do so results in a “0” points for the missing stages. Just don’t take too many breaks between stages.

This is **NOT** a running contest but a chance to see and enjoy the natural surroundings.

There is no squads in this match. But if you want, you can walk in groups of 2-3, BUT make sure that you can make the last shot NLT 1800 Saturday and 1400 Sunday.

You will walk clockwise on Saturday and depending on your starting point Sunday, clockwise or counter clockwise.
