Waking up at the crack of dawn is just one way we ensure our dough is kneaded to perfection, giving a light, crispy base for our fresh selection of toppings. We can't wait to share our variety of pizza topping combinations with you, we highly recommend you come and try what everyone is raving about here at Flaming Good Pizza co.

**RocketGro** are a leading Peat-Free compost producer based in Somerset on a 6000-acre family farm. All our composts and growing media products are developed from Somerset and West Country sourced substrates, and all are 100% sustainable. Our farm produces renewable energy and enables RocketGro to run its production line on 100% renewable energy. All our products are Soil Association Approved for Organic growing. Our carbon footprint is so low that a recent carbon audit had us at almost carbon neutral without buying carbon credits. With a leading team of horticulturalists behind the development of the products, and enough substrates grown on our farm for millions of bags per year of production, we are staying ahead of the science and future proofing our business. Huge investment will continue to make sure we are staying at the forefront of the Peat-Free revolution, with the consumer, and planet, coming first at all times.

**Find us inside Cottrill Hall.**

## **ABOUT THE PA**

### **Our Fundraising Aims**

The Parents' Association is raising funds to contribute to the Student Experience Fund.

**There are three key areas:**

#### **The Take 5 Upgrade**

‘One cannot think well, love well, sleep well if one has not dined well’ – Virginia Woolf

Modernisation & Renovation for multipurpose use of the canteen area ‘Take 5’, to encourage studying outside of break times and improve the student dining experience.

The existing dining space will be reconfigured to provide a modern space to dine as well as a place for students to study.

Cost: £40,000

## Our Fundraising Aims

### Lights, Camera, Action! The Cottrill Hall project

‘If you can dream it, you can do it’ – Walt Disney

To enhance the facilities here at Colyton, the Cottrill Hall will be refurnished with high quality sound and lighting. This will further improve the experience for our students during productions such as music, poetry, or drama. In addition, it will offer a conference space and/or community cinema for the local area.

Cost: £15,000

## Our Fundraising Aims

### The Cricket Cage Project

Students remark that ‘With new practice nets, we could have a controlled environment to work on our batting and bowling skills, allowing us to focus on specific areas for improvement. These improvements would elevate the standard of cricket at school, leading to enhanced skill development, increased participation, and a greater sense of camaraderie among the students.’

In addition, they will increase our sports facility offering to the local community.

Cost: £45,000
