All those present are informed that between those present and those represented there are a total of 199 owners with a coefficient of 60.3347%, all with voting rights, except for the following properties which are mentioned below 203, (local 124,125), (215, local 115, 116, 117), 615, 707,( 725,726) 818,821, 922,1024 which means a total of 189 owners with voting rights.

The meeting was opened by the President who, before starting with the agenda, asked for a minute's silence for the members of the community who are no longer with us, and also welcomed the new owners, and thanked them all for their attendance with a special mention for overcoming this pandemic soon and for being able to see us next year in better circumstances.

#### **1.- Report of the Board of Directors on the management carried out during its mandate.**

As it was sent together with the notice of meeting, it was not read out, the Chairman addressed the attendees and asked if they had any doubts about the report, thanking the team for their work and welcoming the new owners, a question was raised by Pedro González regarding the incident mentioned in flat 324 and 224, clarifying that 224 has also been damaged by 324, but the community insurance is already in place and there has been no major problem, therefore it was put to the vote and was approved unanimously.

#### **2º.- Approval, if appropriate, of the accounts for the financial year 2021, attached for this purpose:**

- detailed report on the revenue and expenditure account 2021
- Trial balance
- budget developments
- balance sheet

The Administrator informs that in the accounts there is a balance between income and expenditure with respect to the ordinary budget. PLEASE NOTE THAT THE INCOME ACCOUNT FOR THE COMMUNITY IS THE SANTANDER ACCOUNT. ES53 0049 4263 2425 1410 0079

Also at this point the administrator clarifies the situation of the lawsuits against the reception, two lawsuits were filed, in the first one Mr. Muñoz paid the debt and I enervate the action. In the

second one, he has been sentenced to pay the 1.496,40 euros that he owes to the community and of course to the eviction of the reception, all in favour of the Community, but it has been impossible for the Court to notify him, the Court requested an address enquiry and what has been requested by the Community is to be notified by means of an Edict or publication in the BOP. It is more than likely that the debt from the reception will never be collected, that is why it has been regularised in the balance sheet and in the event that at some point something is collected, it will be an extraordinary income for the Community.

The accounts are put to the vote and are approved by majority with Pedro Gonzalez and his representatives, Elsa Adan and her representatives, Angela Barner and her representatives, Daniel Niz and his representatives abstaining. Pedro clarifies that they have not seen any issues that call their attention but that as a new board of directors they want to abstain out of prudence.

**3º.- Study and approval of the income and expenditure budget for the financial year 2022, attached to this call, for an amount of 248,314.32 euros, which would mean maintaining the same amount of community fees.**

The annual budget for 2022 is put to the vote and not approved, with Pedro González and his representatives, Elsa Adan and her representatives, Angela Barner and her representatives, Daniel Niz and his representatives, and Mr. Nis and his representatives voting against, the flat 110. Pedro González clarifies that if they leave as the new board of directors, the budget for 2022 will be presented with their dues. It should be clarified that in the meantime the 2021 budget will be extended until the 2022 budget is approved.

**4º.- Report on the notification sent to the owners regarding the electrical installation and the obligation to provide the bulletin and, if necessary, to adapt the internal installation of the flat at the owner's expense.**

This matter has been notified and all the owners have been informed in a reliable way. The engineer of the Community Don Juan Armas has been in contact from the beginning with the industry and the interpretation of the industry is the one that has been informed to the neighbours, in which they estimate that before May the installations of the private flats must also be adapted to the regulations.

Pedro González wants it to be noted that the e-mail sent by the industry to the engineer is not an adequate way of replying or of establishing any binding deadline, and that a reply from the industry should be requested through the correct channels.

**5º - At the request of some owners;**

**a) Decisions to be taken and their approval not to have tourist exploitation in the complex.**

The owners unanimously agreed that this item could not be voted on.

**b) Decisions to be taken so that in the event of a farm, the election of the farm is carried out by the owners' meeting and never by the board of directors.**

The owners unanimously agreed that in the case of a farm, the election should be carried out by the owners' meeting and never by the board of directors.

**c) Empowerment of the president to act before any administration to defend the legal residential use of the owners of the complex.**

It is unanimously authorised to empower the president to act before any administration to defend the legal residential use of the owners of the complex.

**d) Given that Canary Land North has effectively ceased to provide tourist services in the complex, approval, if appropriate, to request and/or promote the cessation of said operator in the General Tourist Register and before any public body, prohibition of said company and any other company from using the services and common areas to provide tourist services in the complex in the regular extra-hotel modality, excluding holiday rentals.**

Adopted by majority vote

**6º.- Determination and settlement of the debit balances of the owners in arrears at the time of the Meeting, approval, if appropriate, to file a legal claim against them. Authorisation to the President to represent the Community in these proceedings and, on behalf of the Community, to grant power of attorney for lawsuits in favour of lawyers and solicitors, if necessary.**

**Ratification of the agreement approved in previous meetings, to penalise late payment of quotas or contributions by 5% per quarter.**

It is unanimously approved to lift the debit balances of more than 180 euros and to approve their judicial claim and to authorise the president to appoint a lawyer and solicitor;

The administrator would like to thank the work of the board of directors who have actively collaborated in the performance of her role, obtaining great achievements for the Community and also to the Don Paco Community for the time that she has served as administrator.

Pedro González and Mr Nis are also thanked for their support.

The present agenda item was put to the vote and was approved by a majority and the joint signature of two out of four of the posts of President, Vice-President, Secretary and Treasurer for the disposal of the funds was also approved by a majority.

**8º.- Requests and questions.**

The owner of 609 suggests the possibility of hiring a security guard for the night, but the President comments that this is a cost of around 30,000 euros and that so far there have been no incidents at Don Paco, neither thefts nor squatters.

The vice-president thanks all the owners for their cooperation and reminds them of the importance of sending any questions by e-mail before the meeting in order to try to respect health protocols as much as possible.

And with no further business to discuss, the Chairman adjourned the meeting at 13:00 hours on the above-mentioned day, to which I, as Secretary, bear witness.

VºBº EL PRESIDENTE  
D. Enrique Quevedo Báez

EL SECRETARIO  
D. Luis Antonio Curbelo González
