Day 1

Arrival at Baltra Island, transfer to Santa Cruz Island, and visit to the tortoises at Charles Darwin Station

AM

1

Upon arrival in the Galapagos Islands, once the entry process at Baltra Island airport is completed, our representative will greet you outside. They will be the person welcoming you to the islands and will subsequently transfer you to Puerto Ayora on Santa Cruz Island for your first visit.

PM

2

Visit to the Charles Darwin Research Station and the Galapagos Giant Tortoise Breeding Center.

This is a guided tour, accompanied by a certified naturalist guide from the Galapagos National Park. Here, you will observe giant tortoises at different stages of life. Additionally, a tour inside the interpretation center is conducted to learn about the research and conservation projects of the scientists at the location.

Day 3

Arrival to Isabela Island and private tour to the Sierra Negra volcano

AM

1

Trip to Isabela Island by ferry (interislands boat) in the early morning.

Approximately 2 hours and 30 minutes.

PM

Tunnels tour

2

One of the most spectacular places in Galapagos for snorkeling and appreciating the landscape. After approximately 40 minutes of navigation, we will arrive at the place where the water is shallow, calm, and very clear to observe the rock formations that a series of arches and tunnels has produced from volcanic eruptions, where nowadays a large number of Galapagos endemic species inhabit.

During this tour, you can observe: white-tip shark caves, blue-footed boobies with their chicks, penguins, sea lions, seahorses, rays, a variety of fish, and along the way, manta rays are also often spotted.
