**WHY
CHOOSE
A
KRAMPOUZ
APPLIANCE**

MADE IN FRANCE

- Krampouz griddle plates and broiler grills are designed and manufactured in France for their exceptional durability and quality.

IDEAL TECHNICAL PERFORMANCES

- Fast preheating
- High precision cooking
- Perfect heat distribution

EASY TO CLEAN

- Stainless steel makes cleaning a breeze and your griddle easy to clean.
- The cast iron cooking plate of the broiler grill depth model can be cleaned simply with a brush and a scraper.

DID YOU KNOW?

Thanks to a combination of our 100% stainless steel cooking surface and heat conductive material, Krampouz griddle heats up quickly, evenly and provides precision cooking. Thanks to the sturdy cooking surface and the reinforced supports, there is no risk of warping.

DID YOU KNOW?

Krampouz has adapted its know-how related to the crepe to its new broiler grill depth model. Two tubular coiled heating elements are directly integrated into the cooking plate. This technology ensures better heat diffusion over the entire plate.

1 WHICH UTILITY ?

ELECTRICITY OR GAS ?

Outdoor and indoor use	Indoor use	Outdoor and indoor use
High precision cooking	Precise temperature control thanks to adjustable thermostats	Automatic temperature control (exception: manual temperature control for cast iron gas griddle)
Heats up quickly	Heat time to 250°C / 480°F = 12 min	Heat time to 250°C / 480°F = 8 min
Mobility	You need to have an electric socket nearby	You just need to move the cart where ever you want

2 1 OR 2 COOKING ZONE(S)?

1 cooking zone

Food cooks at the **same temperature** everywhere on the plate.

2 cooking zones

Possibility to cook food at **two different temperatures** at the same time.

DID YOU KNOW?

The gas griddle plate «Automatic Control System» is equipped with an automatic control system of the temperature. Simple to use, the gas griddle plate automatically adjusts to hold the desired temperature.
