

## Place in Site Master File #13

### SUP-ICU newsletter – April 2016

Thank you very much for your great commitment to the SUP-ICU trial.

## Status

Since the previous newsletter we have more than doubled the number of randomised patients, from 118 to 248, and 10 sites are now active. Congratulations to the departments at Køge, Randers and Neurointensive Care at Rigshospitalet who are top recruiters of the month. Well done!

Trial medication was delivered at 12 new sites this week and they are expected to start recruiting patients within the next few weeks. We are looking forward to the first randomised patients at all these sites and to the first randomised patient outside Denmark.

You can follow the inclusion and the number of active trial sites at [www.sup-icu.com](http://www.sup-icu.com) (Press F5 to refresh the page and get the updated status).

## Transferral of patients

If patients are transferred to another active SUP-ICU site, trial intervention and data collection can be continued. This is done by 1) filling in the discharge form and selecting “discharge to ICU participating in SUP-ICU trial” and choosing the receiving site (discharging site) and 2) re-admitting the patient in the discharge form (receiving site).

For updated information of active sites, please follow the link at the bottom of the home page ([www.sup-icu.com](http://www.sup-icu.com)).

## SUP-ICU hotline

If you have any questions please send us an email ([mette.krag.01@regionh.dk](mailto:mette.krag.01@regionh.dk)) or contact the SUP-ICU hotline 24/7 (+45 3545 7450). If no one answers the phone, please **leave a message and your phone number** and we will call you back as soon as possible.

Please archive this newsletter in your Site Master File.

Best regards,  
Mette and Morten
