## SUP-ICU newsletter – October 2016

Thank you for your great commitment to the SUP-ICU trial.

## Status

Since the previous newsletter more than 173 patients have been randomised, and we have now randomised 1111 patients (33%). Twenty-nine sites in five countries are active. Well done and thanks to all of you for the effort.

You can follow the inclusion and the number of active trial sites at [www.sup-icu.com](http://www.sup-icu.com) (press F5 to refresh the page and get the updated status).

## New sites

No new sites since last newsletter

## Top recruiters

Top 5 overall recruiters in September were:

1. Groningen (21)
2. Bern (20)
3. Rigshospitalet 4131 (17)
4. Aalborg (14)
5. Basel (12)

Congratulations to Groningen for finishing as the monthly top recruiter once again and for randomising **patient number 1000** in the SUP-ICU trial!

## Future active sites

Aarhus Nørrebrogade (DK) will start in a short while – we are looking very much forward to welcoming you in the trial. UK and Italian sites are expected to join during fall. Currently we are awaiting the final national approvals.

## Important information

- 1) In April/May we expect to carry out the first interim analysis (after 90-day follow-up of 1675 included patients). At this time it is important to be fully up-to-date with entering data in the eCRF.

## Other

We are closing in on inclusion of one third of all patients in the SUP-ICU trial. Last week 49 patients were included – the most productive week ever in the trial – great job!
