HOT-ICU newsletter – January 2020

Thank you very much for your steady commitment to the HOT-ICU trial.

Status

Firstly, we wish you all a happy New Year!

We hope to complete the inclusions of the trial before summer 2020, but we depend on the continued vigilance from all of you to accomplish this goal. Historically, the winter months provide the most patients, and we had a total of 109 enrolments in December. Fantastic achievement by you all!

By now a total of 2341 patients of the planned 2928 has been enrolled, and we therefore have 587 patients to go!

Top recruiters

Top five recruiters in December were:

1. Køge (11)
2. Hillerød (10)
3. Aalborg (10)
4. ICU North, Aarhus (9)
5. Randers (9)

Congratulation to all sites!

Things to highlight:

1. Please strive to screen all patients fulfilling the inclusion criteria as soon as possible after ICU admission
2. Please ensure that the specific e-mail notifications of major protocol violations are handled to secure adherence to protocol for all patients
3. The following document has been updated:
[Co-enrolment list](#) (currently version 14.0) with the addition of the COMBAT-SHINE, PROCAP, CRYOSTAT-2, PHIND and A2B trials
