HOT-ICU newsletter – February 2020

Thank you very much for your steady commitment to the HOT-ICU trial.

Status

We have just 16% of the patients to go before the trial is completed, and we encourage all participating sites to remain vigilant and to keep up the fantastic inclusion rate.

The site which includes patient number 2528 out of the planned 2928 patients will be rewarded.

So far, February has been the month with the highest inclusion rates. Time to beat the record this February 😊!

Top recruiters

Top five recruiters in January were:

1. Basel (15)
2. Køge (13)
3. Aalborg (12)
4. Hillerød (11)
5. Cardiff (8)

Congratulation to all sites!

Things to highlight:

1. Please strive to screen all patients fulfilling the inclusion criteria as soon as possible after ICU admission
2. Please ensure that the specific e-mail notifications of major protocol violations are handled to secure adherence to protocol for all patients
3. The following document has been updated:
[Data verification plan - English edition](#) (currently version 3.1). Only applicable in non-Danish sites.

Please print and file in Site Master File

Keep up the great work!
