HOT-ICU newsletter – July 2020

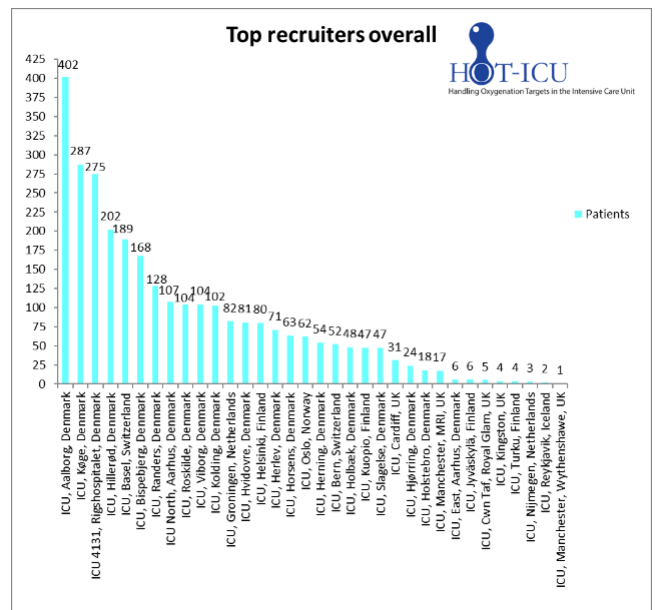

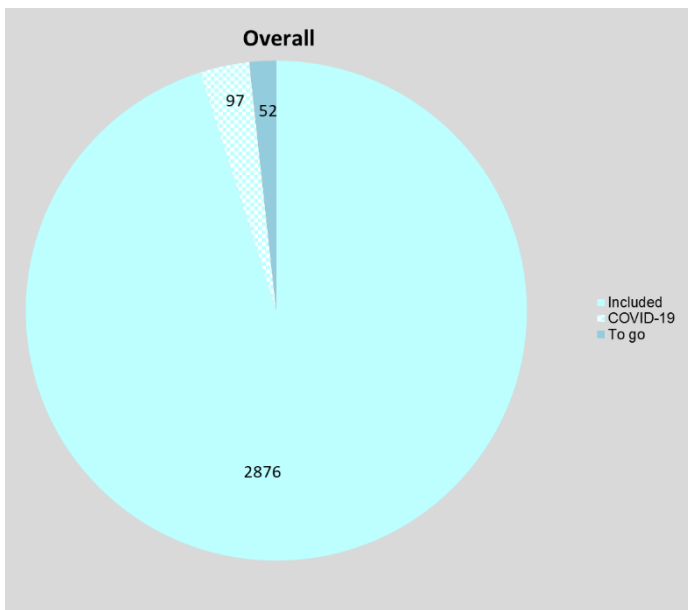

Thank you very much for your steady commitment to the HOT-ICU trial.

Status

A total of 2876 patients, of which 97 are confirmed COVID-19, have been included. Thus, only 52 patients to go before trial completion. We are so proud to be almost done with inclusions. Thanks to all 36 sites for a tremendous effort!

There will be a special reward to the site that includes the last patient 😊

It is important that all forms in the eCRF are completed and that you continuously enter data.
