Mail: godif@cric.nu

The registration below is based on information from the first day in the ICU.

#	Question	Answer	Unit	Info	Validation and limits decimals	Further comments for data manager
BL1	Hospital admission date?	_ _ - _ _ - _ _ _ _	dd-mm-yyyy	The date of admission to the first hospital the patient was admitted to during the current hospital admission	Required	Date must be prior to randomisation
BL2	ICU admission date?	_ _ - _ _ - _ _ _ _	dd-mm-yyyy	The date of admission to the first ICU or high-dependency or step-up/step-down bed the patient was admitted to during the current hospital admission	Required	Cannot be before hospital admission date. Can be after randomisation date, but give warning if ICU admission date is after randomisation date "ICU admission date is after randomisation date - are you sure this is the correct?" → yes to proceed.
BL3	ICU admission time?	_ _ - _ _	24 hours, hh:mm	The time of admission to the first ICU or high-dependency or step-up/step-down bed the patient was admitted to	Required	Can be after randomisation time, but give warning if

				during the current hospital admission		admission time is after randomisation time (same date) "ICU admission time is after randomisation time - are you sure this is the correct?" → yes to proceed.
BL4	From where was the patient admitted?	<input type="checkbox"/> Emergency department or directly from the pre-hospital setting <input type="checkbox"/> Hospital ward <input type="checkbox"/> Operating or recovery room. <input type="checkbox"/> Another ICU.		<p>Emergency department or directly from the pre-hospital setting: Accident/Emergency /Casualty/Acute department in the same or another hospital or direct admission to the ICU by an ambulance service or similar.</p> <p>Hospital ward: Any location in the same or another hospital not covered in the other 3 categories.</p> <p>Operating or recovery room: Including surgical theatre, endoscopy and angiography suite and</p>	Single select required	

				any recovery facilities observing patients following invasive procedures. <input type="checkbox"/> Another ICU: Either within the same or another hospital		
BL5	Did the patient receive elective surgery during current admission prior to randomisation?	<input type="checkbox"/> YES <input type="checkbox"/> NO		Definition of septic shock: suspected or confirmed site of infection or positive blood culture AND infusion of vasopressor/inotropic agent to maintain a mean arterial blood pressure of 65 mmHg or above AND lactate of 2 mmol/L or above.	Required	
Septic shock according to the Sepsis-3 criteria						
BL6	Has the patient had septic shock during this admission according to the Sepsis-3 criteria?	<input type="checkbox"/> YES <input type="checkbox"/> NO			Required	
Co-morbidities prior to ICU admission						

BL7	History of ischemic heart disease or heart failure?	<input type="checkbox"/> YES <input type="checkbox"/> NO		Previous myocardial infarction, invasive intervention for coronary artery disease, stable or unstable angina, NYHA class 3 or 4 or measured LVEF < 40%.	Single-select required	
BL8	History of chronic obstructive pulmonary disease?	<input type="checkbox"/> YES <input type="checkbox"/> NO			Single-select required	
BL9	Does the patient have diabetes?	<input type="checkbox"/> YES <input type="checkbox"/> NO			Single-select required	
BL10	History of stroke or neurodegenerative illness?	<input type="checkbox"/> YES <input type="checkbox"/> NO			Required	
BL11	Is the patient in treatment with diuretics from before admittance to hospital?	<input type="checkbox"/> YES <input type="checkbox"/> NO		:	Required	Hvis der svares YES. Skal de videre til BL13a
BL11a	Is the patient receiving habitual diuretics during the ICU stay?	<input type="checkbox"/> YES <input type="checkbox"/> NO			Required hvis BL13 er YES	Hvis YES skal BL14b åbnes

BL11b	Which group of habitual diuretics is the patient receiving during the ICU stay?	<input type="checkbox"/> loop diuretics <input type="checkbox"/> Thiazides <input type="checkbox"/> Potassium sparing diuretics <input type="checkbox"/> Carbon anhydrase inhibitors			Required hvis BL13a er YES	Ingen begrænsninger i antallet af hak
COVID-19						
BL12	Is the patient COVID-19 (SARS-CoV-2) positive on admission?	<input type="checkbox"/> YES <input type="checkbox"/> NO			Required	Any sample from airway secretions or nasopharyngeal swab positive for SARS-CoV-2/COVID-19 at any time leading to or during current hospital admission. If no COVID-19 test has been conducted, or if test results are pending, answer NO.
