AID-ICU newsletter – November/December 2020

Merry Christmas and a Happy New Year!

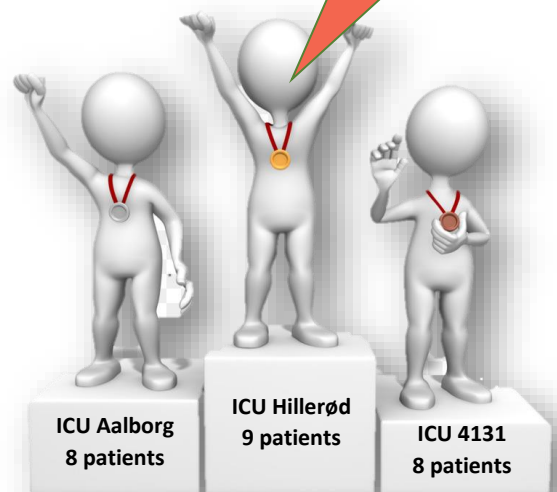

STATUS

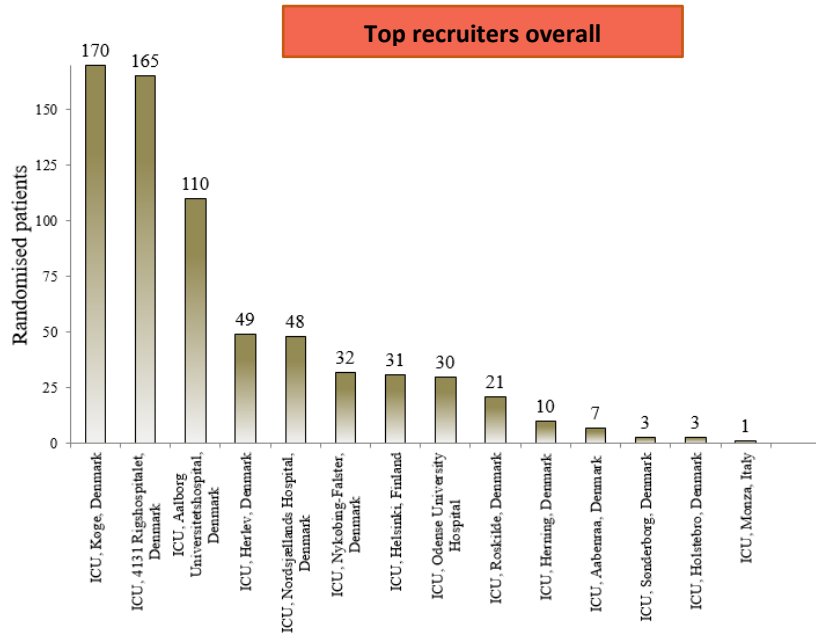

2020 is about to come to an end. What a year? At the moment many of you are working hard due to the second wave of the pandemic. The second wave has struck hard on Denmark who are now having the highest number of patients admitted to the hospital due to COVID-19. The number of hospital admissions is thereby higher than in the first wave. Research is still running with high priority. Many COVID patients develop delirium during their ICU stay and we continue to recruit patients to the trial although we are running fast in our clinical work. New staff are trained in CAM-ICU to keep compliance in the study. We strive to keep trials running along with other CRIC trials focusing on COVID-19 treatments; COVID-STEROID2 and HOT-COVID.

For many of you this Christmas holiday will be different and some of you might not get the days off that you were looking forward to. Nonetheless, we wish you a Merry Christmas to you and your family and hope you get some peace to enjoy this special time of year. We thank you for your commitment and all your hard work you have put into AID-ICU in the past year. We hope that we in the coming year will finalize recruitment in the AID-ICU study.

Congratulations to the top-recruiters:
ICU Hillerød
ICU Aalborg
ICU Rigshospitalet

Sponsor: Lone Musaeus Poulsen

After-AID koordinator: Camilla B. Mortensen

AID koordinator: Nina A-Ranberg

Merry Christmas and a happy New Year!
