

GODIF Newsletter August to November 2021

Thank you for committing to the GODIF trial!

Dear friends and colleagues,

Thank you for your efforts in the GODIF trial. We have now randomised 39 patients at six Danish sites. We are proud to welcome Norway to the GODIF team. We expect to initiate two sites - Stavanger and Ålesund in December.

In December/January we expect to welcome University Hospital Zealand in Køge and Roskilde. We are looking forward to the collaboration.

We are currently working on a protocol article for the GODIF trial and a systematic review of loop diuretics in intensive care patients with fluid overload. We will present the results in a newsletter when it is ready.

Important information:

When you are dispensing trial medicine to your patients – please make sure that you take the vial with the correct vial-ID. In the boxes with trial medicine the vials are mixed (furosemide and placebo), which makes it very important to take the correct vial.

The Coordinating Center is always available on the
GODIF hotline: +45 48 29 67 73
Mail: godif@cric.nu

Kind Regards form the GODIF team
Morten (Sponsor) and Sine (Coordinating Investigator)

We look very much forward to further collaboration. Thank you for your support!

All the best,

Morten and Sine
