

GODIF Newsletter December 2021 to February 2022

Thank you for committing to the GODIF trial!

Dear friends and colleagues,

Thank you for your participation in the GODIF trial. We have welcomed four new sites: Stavanger University hospital, Ålesund Sjukehus, Zealand University Hospital Køge and Zealand University Hospital Roskilde. We are now 8 Danish and 2 Norwegian active sites. Finland is approved and expected to join us soon. We have now included 61 participants.

The strain the COVID pandemic has had on the ICUs seems to have loosened up most places. We hope it creates room and energy for enrolling patients in the GODIF trial.

New documents for your site master file.

The annual safety report for the GODIF trial is available and other documents with minor revisions or corrections. New documents are always announced under trial documents on the page for site mater file (<http://www.cric.nu/godif-log-of-changes/>). New documents will always be attached to the newsletter send out four times a year.

The Coordinating Center is always available on the
GODIF hotline: +45 48 29 67 73
Mail: godif@cruc.nu
www.cric.nu/godif/
Kind Regards form the GODIF team
Morten (Sponsor) and Sine (Coordinating Investigator)

We look very much forward to further collaboration. Thank you for your support!

All the best,

Morten and Sine
