

Place in Site Master File #13f

HOT-COVID newsletter – May 2022

Dear friends and colleagues

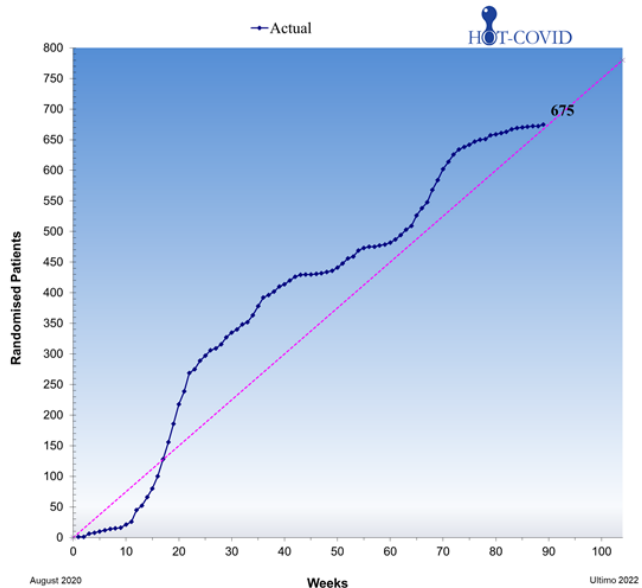

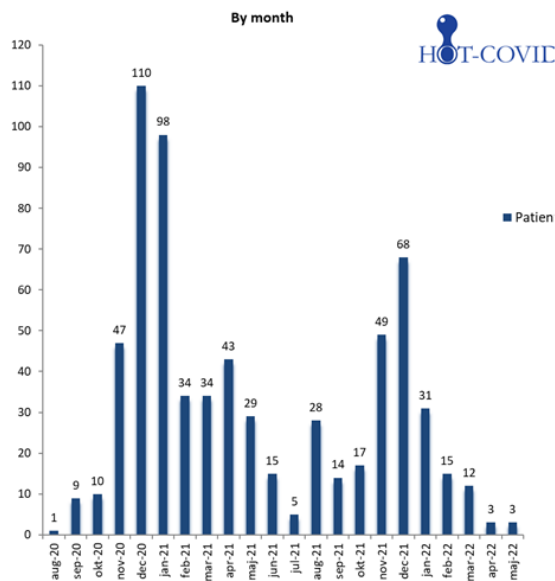

Status

Recruitment has continued to decrease with the change in the weather and the receding Omicron wave. We are grateful for every single randomisation, and still expect the trial to finish this year

Recruitment

Presently, 675 patients have been randomised and 105 randomisations remain before trial completion. With only 3 patients randomised, April was a quiet month. A big thank you to all sites for your continued efforts and diligence.

Finally, we would like to congratulate Basel for having randomised their patient nr 125 on the 6th of May 2022.

Top recruiters in April 2022

1. Basel (1)
1. Hillerød (1)
1. Kolding (1)

Congratulations to all sites!

Things to highlight:

1. The **annual safety report** and the **updated trial approval from the Danish Medicines Agency** have been uploaded to the webpage. Please download them for your site master files.
2. Please strive to screen all patients fulfilling the inclusion criteria as soon as possible after ICU admission
3. Please ensure that the specific e-mail notifications of major protocol violations are handled to secure adherence to protocol for all patients
4. **Only for Danish sites:** Translations of the written information for participant are now available in English, Russian, Romanian, Polish, Arabic and Spanish. Please contact us if in need.

HOT-COVID hotline

If you have any questions do not hesitate to send an e-mail to hot-covid@cric.nu or to contact the HOT-COVID hotline (+45 2118 2543). Please **leave a message and your phone number if the call is not answered** and we will call you back as soon as possible.

Please archive this newsletter in your site master file.

Kindest regards

Frederik, Thomas, Olav and Bodil
