HOT-COVID newsletter – December 2022

Dear friends and colleagues

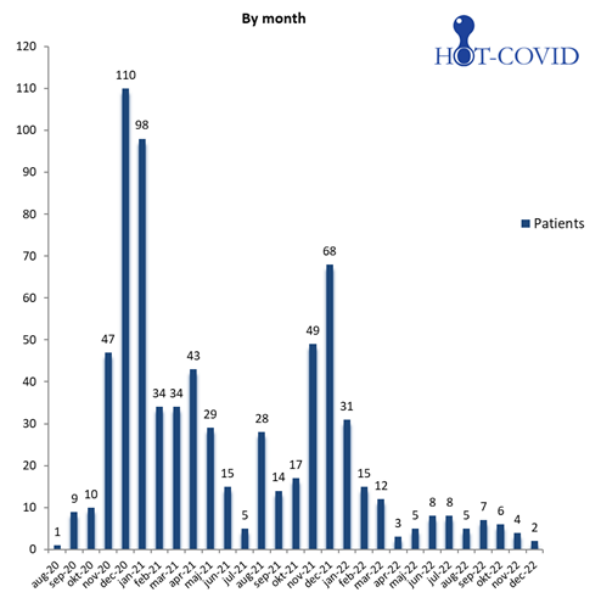

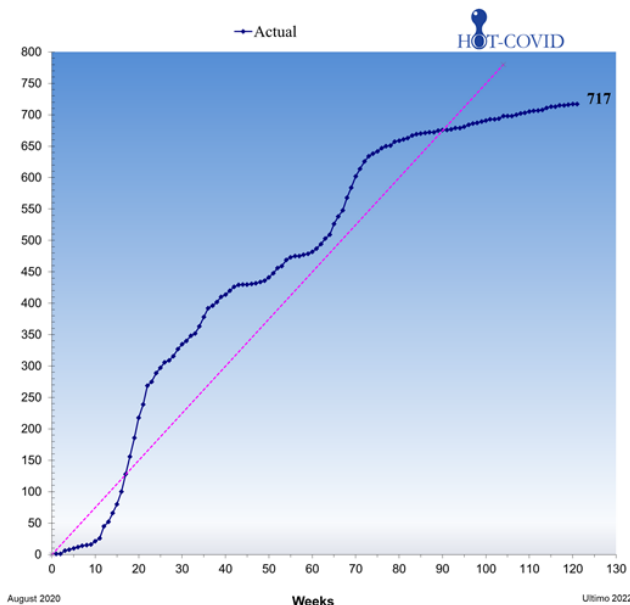

Status

The rate of randomisations has stagnated as the number of COVID-19 hospitalisations have remained low in all participating countries. For now, the HOT-COVID trial remains on-going and we urge all participating sites to screen all relevant patients. In this aspect we would like to thank you all for your huge contribution to the trial – it is highly appreciated.

We would also like to wish you a happy Christmas and a happy New Year - hopefully without any COVID-19 restrictions.

Recruitment

Currently, **717** patients have been randomised with only 63 patients to go before trial completion.

Top recruiters in December 2022

1. Randers Hospital - 1
2. Aalborg – 1

Congratulations to both sites!

Things to highlight:

1. Please strive to screen all patients fulfilling the inclusion criteria as soon as possible after ICU admission
2. Please ensure that the specific e-mail notifications of major protocol violations are handled to secure adherence to protocol for all patients
3. **Only for Danish sites:** Translations of the written information for participant are now available in English, Russian, Romanian, Polish, Arabic and Spanish. Please contact us if in need.

HOT-COVID hotline

If you have any questions do not hesitate to send an e-mail to hot-covid@cric.nu or to contact the HOT-COVID hotline (+45 2118 2543). Please **leave a message and your phone number if the call is not answered** and we will call you back as soon as possible.

Please archive this newsletter in your site master file.

Kindest regards

Frederik, Thomas, Olav and Bodil
