

Croft Garden Rooms

<https://www.croftgardenrooms.co.uk/>

Bespoke garden rooms across [Surrey](#), [London](#) & [Kent](#)

# Garden Office

- A garden office is the ideal solution when working from home. Instead of working on the kitchen table, or from a laptop on the sofa, imagine having your own bespoke garden home office, configured and tailored to your own requirements.
- Croft Garden Rooms offer a full design and build service with your requirements firmly at the forefront. No matter how large or small your garden room needs to be, we can build a structure ideally suited to you.

# Garden Home Gym

- ❑ Keeping fit and healthy is paramount in this fast-paced, busy world, and having your own gym in your garden means you can work out any time you feel the urge.
- ❑ No more expensive gym fees, and no more working to specific opening times.
- ❑ Your new garden gym can be equipped just how you want it. Whether you prefer to use weights, resistance equipment, running machine or you're into yoga or pilates, your home gym will be setup just for you.

# Garden Music Room

- Croft Garden Rooms design and build garden music rooms all across Surrey, Kent and South London. A music room can be somewhere quiet for you to immerse yourself in your music genre of choice, or somewhere for you to play the piano, guitar or other instrument.
- Having somewhere quiet and private allows you to enjoy your music, whether playing it or listening to it. A garden music room allows you the peace and tranquility in the comfort of your own garden. Our garden rooms are built aesthetically to nestle in your garden and provide the additional space you need. With glazed walls and doors, natural light floods the room.

# Garden Studio

- When you think of a garden studio, it can conjure many different images in your mind. You can use a garden studio for art projects, music, craft, pottery, drawing or just a simple relaxation room.
- The garden studios we build can be used for just about anything you desire. Croft Garden Rooms have built studios for all of those uses for our clients across Surrey, Kent and South London.
- We use only the best quality materials to give you an immaculate finish you can be proud of. However you decide to use your room, our building experts can advise the best layout, design and location within your garden for your new garden room.

# Garden Annexe

- Having a garden annex built instead could be the perfect solution you've been looking for. The majority of garden rooms do not require planning permission as they are considered within permitted development. The cost to build a garden guest bedroom would also be considerably cheaper than extending your home.
- Croft Garden Rooms will discuss your project with you, define the ideals you require, design the layout, plan the project and provide you with a fully insulated completed room set out to your specification.
