February 2025

World Boxing Announces Creation of European Boxing Confederation

Together with World Boxing, its national federations across Europe have united to establish a new continental Confederation, named **European Boxing**. The formation of this new Confederation is a direct result of the progress made by World Boxing and its members over the past years.

The **Interim Board of European Boxing** is excited to announce the upcoming **Inaugural Congress**, which will take place on the 23rd March 2025 in Prague. The Congress will be held in a **hybrid format**, allowing attendees to participate both **in person and virtually**.

Currently, World Boxing has now 20 European members, with additional federations in the process of becoming members. The European members of World Boxing will gather at the Inaugural Congress to approve the statutes and to elect the Executive Board members of European Boxing.

The Inaugural Congress will also include the formation of committees and the election of committee chairs. We propose the following committees:

- Sports & Competition,
- Referee & Judges,
- Medical & Anti-Doping,
- Audit & Finance, and Ethics.

In preparation for the Congress, **the Interim Board of European Boxing** will collaborate with a **third-party provider** to set up an independent vetting panel to review all applications for leadership positions.

Further information will shortly be distributed to European members of World Boxing.

Best regards

European Boxing workgroup.
