Triple Crown Wargaming

Welcome to the Triple Crown Wargaming 2023 Monsters Compendium! This document is intended to be used alongside the Triple Crown Wargaming GT 2023 Comp Pack and the Derby Deathmatch 2023 Comp Pack and allows you to make certain additions to your Warhammer 8th Edition armies. These additional units are designed to allow you to use your full collection and to have some diversity in your games.

How to use this document?

You may select any number of units from the list presented under the generic monsters section and/or your specific army section, unless otherwise stated. This choice comes out of your **RARE** slot unless otherwise stated, meaning you can only have two of the same unit. Some models may have a minimum base size, this will be noted next to the unit name; you may make the base larger than this to accommodate your specific model however the base may be no smaller than this.

Just like in the Triple Crown Wargaming GT 2023 Comp Pack and Derby Deathmatch 2023 Comp Pack the choices in this document may incur comp points. These should be added or subtracted in the same way as in the main comp document to give your final comp score.

****Ignore the 2nd Sentence of the Colossal Beast special rule (page 16 of Monstrous Arcanum). All other parts of this rule still apply****

Generic Monsters

- -2 per Incarnate Elemental of Beasts (May only be taken if your army includes a level 3 or higher Lore of Beasts wizard) · *Monstrous Arcanum* · **100mm x 150mm**
