This is a 2500 points event, using the rules from the Warhammer Fantasy Rulebook 8th Edition, related army books, with the most recent F.A.Q. and rules clarifications available, alongside the Dalaslaget Comp -system.

Scoring Units

For this event, a unit is considered to be a 'Scoring Unit' provided it meet the criteria listed in this section before the start of the game:

It's an Infantry Unit with at least 10 models and has a Unit Standard Bearer

It's a Cavalry Unit with at least 5 models and has a Unit Standard Bearer

It's a Monstrous Infantry Unit with at least 3 models and has a Unit Standard Bearer

It's a Monstrous Cavalry Unit with at least 3 models and has a Unit Standard Bearer

It's a Chariot Unit with at least 3 models and has a Unit Standard Bearer

NOTICE!

If a Unit loses the Unit Standard Bearer it is no longer considered to be a Scoring Unit.

Finally, the Battle Standard bearer can join a unit and this unit will count as scoring provided that:

A.) he joins the unit at the start of the game and remains with the unit.

B.) The unit also need to consists of the minimum number of models

Infantry, War beasts: 10 models

Cavalry: 5 models

Monstrous Infantry/Beasts/Cavalry and Chariots: 3 models

C.) The unit has at least one model remaining in addition to the BSB.

NOTICE!

A unit with a standard bearer and a BSB only counts as one unit for the purpose of scoring.

The following Units are NEVER considered scoring:

Lone Characters

Monsters (including Ridden ones)

Units that are fleeing

Units with the 'Fly' or 'Hover' special rules (see p.70-71 RB).

Summoned units

Fast Cavalry

Game 1

Capture the Flags

Deployment

Roll off to see which player picks the half of the table that they will deploy in. The opponent will deploy in the other half.

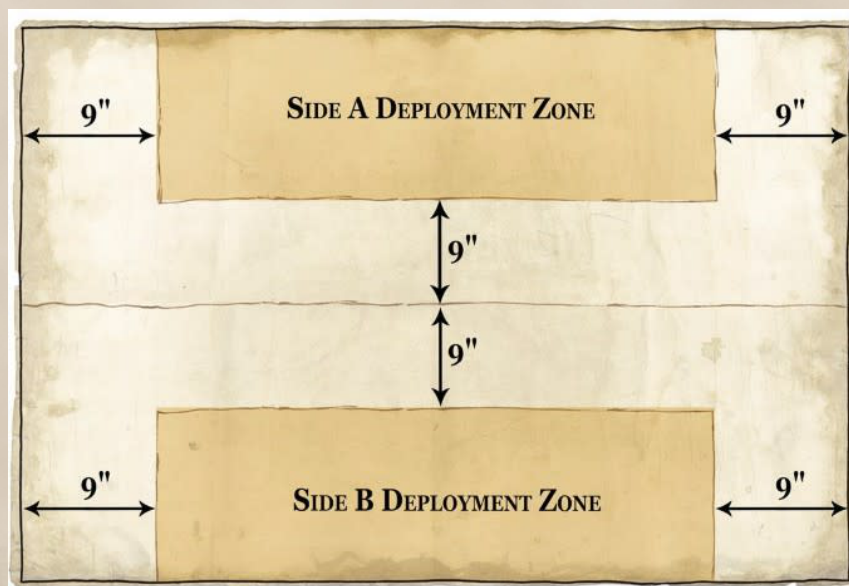

Players then take turns to place units on the table, using the alternating units method of deployment as described in the Rule book. Units may be placed anywhere in their half of the table that is more than 9" away from the center line and more than 9" away from either narrow table edge.

First Turn

Roll off after deployment to see which player takes the first turn. The player that finished deploying his or her army first adds +1 to their roll.

Game Length

The battle will last for six game turns or until a player is wiped out.

Scenario Special Rules

After each player has selected spells, each player reveals how many scoring units they have in their list. Starting with the player who picked the starting side, both players nominate three (3) scoring units to destroy from their opponents scoring units. If a player has less than three (3) scoring units, the opponent then gets to pick any other non-scoring units from the opponents army, this unit then counts as being scoring for this game.

The player whom destroys the most Scoring Units win the Secondary objective.

If both players have destroyed the same amount of Scoring Units neither player is awarded any points from this Secondary Objective.

Game 2

Seize the Centre

Deployment

Place a marker in the centre of the table before the game begins.

Roll off to see which player picks the half of the table that they will deploy in. The opponent will deploy in the other half.

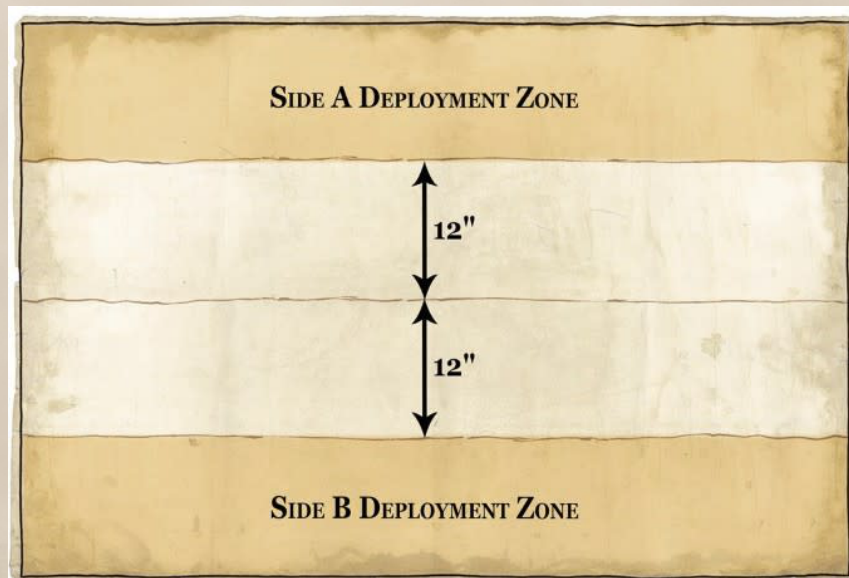

Players then take turns to place units on the table, using the alternating units method of deployment as described in the Rule book. Units may be placed anywhere in their half of the table that is more than 12" away from the center line.

First Turn

Roll off after deployment to see which player takes the first turn. The player that finished deploying his or her army first adds +1 to their roll.

Game Length

The battle will last for six game turns or until a player is wiped out.

Scenario Special Rules

At the end of the second and each subsequent Game Turn, the player with the most Scoring Units within 6" of the marker at the centre of the board gains a counter.

At the end of the game the player with the most such counters wins this Secondary Objective.

If both players have the same amount of counters neither player is awarded any points from this Secondary Objective.

Game 3

Hold the Ground

Deployment

Place five markers as depicted below with suitable tokens or marking tape. One in the centre and four markers are placed in each corner, 12" away from each table edge.

Roll off to see which player picks the half of the table that they will deploy in. The opponent will deploy in the other half.

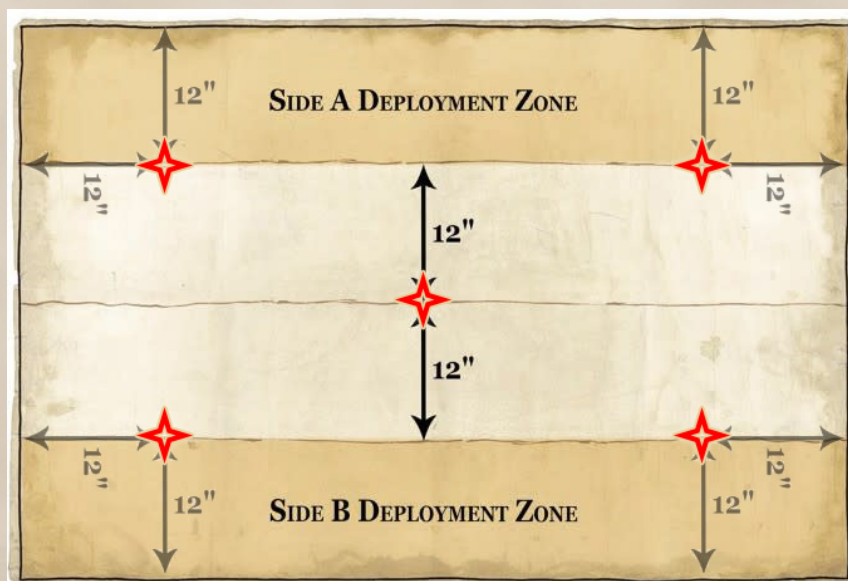

Players then take turns to place units on the table, using the alternating units method of deployment as described in the Rule book. Units may be placed anywhere in their half of the table that is more than 12" away from the center line.

First Turn

Roll off after deployment to see which player takes the first turn. The player that finished deploying his or her army first adds +1 to their roll.

Game Length

The battle will last for six game turns.

Scenario Special Rules

To control an objective a player must have a least one Scoring Unit within 3" of the centre of an objective. If both players have Scoring Units within 3" of the centre of the same objectives, neither player controls that objective.

At the end of the final game turn, the player whom controls the most objectives wins this Secondary Objective

If both players control the same amount of objectives neither player scores any points from the Secondary Objective.

Game 4

Blood And Glory

Deployment

Roll off to see which player picks the half of the table that they will deploy in. The opponent will deploy in the other half. Players then take turns to place units on the table, using the alternating units method of deployment as described in the Rule book.

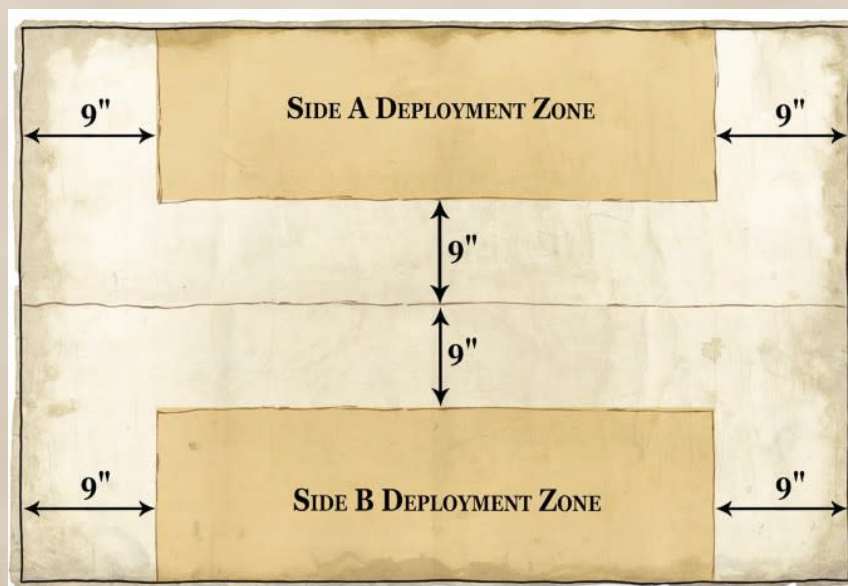

Units may be placed anywhere in their half of the table that is more than 9" away from the center line and more than 9" away from either narrow table edge.

First Turn

Roll off after deployment to see which player takes the first turn. The player that finished deploying his or her army first adds +1 to their roll.

Game Length

The battle will last for six game turns. Note that the games does NOT end immediately when an army breaks (Both players can manage to break one another).

Scenario Special Rules

Any army immediately breaks when its fortitude is equal to or less than its Breaking Point. For this tournament, an army's breaking point is equal to three (3).

Fortitude: An army's fortitude is equal to the current number of standards in the army (including the Battle Standard), plus two (2) for the general. Fleeing units and units that are only temporarily off table still count as providing fortitude.

The player whom have broken their opponent gain the Secondary Objective. If both armies are broken, neither player scores any points from the Secondary Objective.

Game 5

Desecrate the (Un)holy Ground

Deployment

Roll off to see which player picks the half of the table that they will deploy in. The opponent will deploy in the other half. The player choosing the table half also chooses a short Board Edge. Deployment zones are more than 12" from the centre line and more than 18" from the board edge.

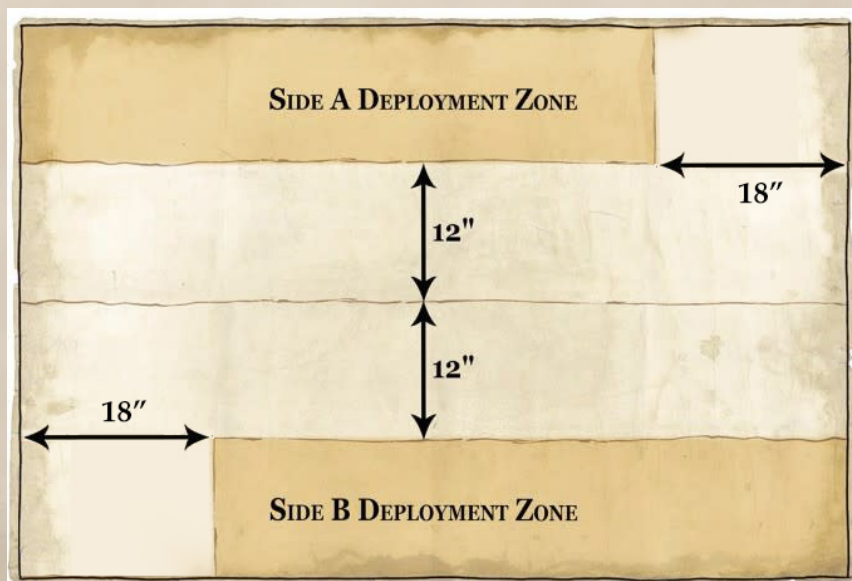

Before deployment each player, starting with the player that chose table half, may choose to keep up to two of their units as Reinforcement. These units follow the rules for Ambushing units (p.79 RB), except they must be placed touching the owners short board edge when they arrive.

First Turn

Roll off after deployment to see which player takes the first turn. The player that finished deploying his or her army first adds +1 to their roll.

Game Length

The battle will last for six game turns.

Scenario Special Rules

After Spell Selection, both players choose a Terrain Feature that isn't Impassable Terrain and that is not fully inside their Deployment Zone, starting with the player whom chose table side. Note that both players may choose the same Terrain Feature.

A player captures their Opponent's chosen Terrain Feature if any of the player's Scoring Units are inside that Terrain Feature at the end of the game.

If a player captures their opponent's chosen Terrain Feature while not allowing their own to be captured, they win this Secondary Objective.

Armies that deploy Terrain Feature like Wood Elves cannot nominate such Terrain for this scenario.

Scoring Table

Mission Objectives

Scoring will follow a modified version of the 20 - 0 system.

Difference in Victory Points	Winner's Tournament Points	Loser's Tournament Points
0-200	10	10
201-500	11	9
501-800	12	8
801-1100	13	7
1101-1400	14	6
1401-1700	15	5
1701-2000	16	4
2000+	17	3

The winner of the Secondary Objective gains 3 Tournament points, whereas the loser will lose 3 tournament points.

If there is no winner or if both players achieve the Secondary Objective, then no additional tournament points are gained or lost.

Tournament points for winning the secondary objective are added or subtracted immediately after each game.

Tournament Info

The Event will be held at the Cozmos Arena at the address:
'Engelbrektskatan 34, 784 32 Borlänge'

<https://maps.app.goo.gl/DFtR2a946YlbmrMd7>

There will be a kiosk available during the entire tournament.

These are recommended places where you can enjoy a lunch during the events:

- American take away (thick crusted pizza)
- Haga Pizzeria (standard pizzeria, also has good kebab)
- Sushi Lovers Club (for the raw fish lovers, closed sundays)
- Golden Palace (Chinese restaurant)

All of the resetaurants are within 10 minutes walking distance.

Armies on Parade

On sunday before the lunch break, players are asked to display their armies with their name written (clearly) in fron of their army. The attendees will then be asked to vote for the army that they believe are worthy this events prize for 'bestest and greatest army'!

Vote for the army which you like the most, based on your own crieria; composition of models in the army, paint job, alternative models, you name it!. The organizers recommend a display board for increased chances of winning.

Once everyone have voted, we will immortalize the winning army with a picture on our website and a round of applause. Oh, a prize will be awarded for this also!

Tournament Info

Best Painted

During the same time as Armies of parade, attendees may present one model to participate in the 'Best painted' category.

Tournament organizers will select the one model they deem to be the 'Best painted' amongst all in the tournament. This paint job and model will be equally celebrated as the Armies on parade winner. Oh, and a prize will be presented to the winner as well.

Sportsmanship

Sportsmanship is a crucially important part of Warhammer!

As poor sportsmanship and bad behaviour is thankfully so rare in our community we do not wish to be unduly formal about policing it, because we trust you!

There are 5 TPs available for sportsmanship - one per game - and these will automatically be granted, apart from if there is a complaint during the event.

If you feel your opponent has behaved badly - including cheating or by being excessively grumpy (beyond what one might reasonably expect in an often frustrating and exhilarating game of dice!) then please come to us at any point in the event to let us know and we will take appropriate action.

All attendees are expected to sign a Code of conduct, ensuring that all players will have a chance to know what's expected of them during this event.

Building your army

So now the fun starts, getting your army together!

This is a 2500 point, closed list event.

Please be aware that your army lists will need to have the following:

- Your name
- The name of your faction
- Your comp score, and how that's calculated
- Your units/characters along with their points,
 - any upgrades they have and the points for those,
 - which lore of magic any wizards are using,
 - who is your army general,
- Your armies total points cost

**Your list needs to be submitted to the organizers by the end of
28th of February 2025**

Late submission will result in a 5 Tournament Point deduction from your final score.

This event will be using the 25% Lords and Heroes allowance as per the original Warhammer Fantasy 8th Edition rulebook (please ignore the change to this in the latest FAQ).

The army selection rules in End Times: Archaon will not be used.

If your army contains a single lord choice, this choice may exceed the normal 25% points allowance.

Per example: Lord Mazdamundi, Malekith on Seraphon, Vampire Lord on Drake, High Elf Lord on Sun Dragon, etc...

For this event, any terrain piece that is classified as either 'Impassible' or as a 'Hill' are considered to be infinitely high for the purpose of checking line of sight between units. *A unit positioned with any part of its bases on top of a 'Hill' can be seen using the regular rules for checking line of sight.*

Dalaslager **C**omp Pack

As we said right at the start this event will be using a roll call comp system; however even if you are already familiar with this system make sure you pay special attention below as we have made some changes to it.

We are aiming for that unrestricted, out of the box feeling but we want to ensure everyone has a good time as well, so the system reflects that. It is as follows:

- You start at 0
- For every choice in your army consult the comp across the following pages
- Add or subtract as instructed to get your final score, with the following restrictions:
 - You can finish with a minus score
 - You can never gain the positive score for duplicates of the same thing more than twice
(e.g. if you have 3 Lion Chariots you only get +2, not +3)
 - Your score has a maximum upper limit of +10 but no lower limit, you can be a -50 if you can fit it in.

Comp Scores and Match Making

Your first round opponent will be semi-random. In your first game you will be matched based on your comp scores and your travel company. Swiss pairing will match opponents after round one.

At the end of the tournament your comp score will be added or subtracted as appropriate from your gaming score to give you your final tournament score and ranking.

Generic Comp

The following Common Magic Items incur the following comp points:

- +1 for the Arabyan Carpet
- +2 for the Wizarding Hat

The following criteria incur the following comp points if they are met:

- +1 if your army does not contain a level 3+ wizard, but DOES contain other spell casters, spells or bound items
(This does not apply to Dwarfs)
- +3 if your army includes no magic users, spells or bound items
(This does not apply to Dwarfs)
- +2 if your army does not contain a Battle Standard Bearer
(This does not apply to Tomb Kings or Vampire Counts)

Units (not characters or single models) that cost over a certain points value will incur comp points as per the list below.

- 1 per unit between 450 and 599 points inclusive
- 3 per unit between 600 and 749 points inclusive
- 5 per unit that costs 750 points or more

In addition, certain choices available to many armies incur the following comp points.

- +1 per non-spellcaster mounted on a Monster
- +1 per character mounted on a Chariot
- 1 per model who knows 3 or more spells from the Lore of Death or the Lore of Life
(Special Characters are exempt from this comp as this would have been included in their comp score)
- 1 per spellcaster who knows spells from the Lore of Light after the second

On the following pages you will find the individual army comp. Each page will cover a different army and will have all the army-specific comp which applies in addition to the comp above.

Beastmen

Beastmen armies may select Marks of Chaos for their units as described in End Times: Archaon; however Beastmen do not pay the additional points cost for these Marks, they are free.

Beastmen armies use the Beastmen Ambush rule from End Times: Glotkin

Where a Common Magic Item is presented in the Rulebook and Warhammer Armies: Beastmen players should use the points value in the Rulebook and the rules in Warhammer Armies: Beastmen.

-1 per spellcaster after the second if the Shard of the Herdstone is included in your list

-1 per Tuskgor Chariot after the 3rd
(including mounts)

-1 for Slugtongue

Brettonnia

The following Bretonnian units gain the Devastating Charge special rule: Bretonnian Lord, Paladin, Knights of the Realm, Knights Errant, Questing Knights, Pegasus Knights, Grail Knights, and The Green Knight

Remove the 0-1 selection limit from the following units: Grail Reliquae, Pegasus Knights, and Grail Knights

Bretonnian Lords may take a single Virtue, with no points limit, in addition to their 100 point magic item allowance.

You still pay the points for the Virtue and follow all of the rules around duplicating Virtues but it is treated as a separate allowance to your magic items.

Bretonnian Paladins may take a single Virtue, with a 50 point limit, in addition to their 50 point magic item allowance. You still pay the points for the Virtue and follow all of the rules around duplicating Virtues but it is treated as a separate allowance to your magic items.

Where a Common Magic Item is presented in the Rulebook and Warhammer Armies: Bretonnia players should use the points value in the Rulebook and the rules in Warhammer Armies: Bretonnia.

Errata

Stubborn. Replace the first sentence with "Stubborn units takes Break tests without applying the difference in the combat result scores."

Disrupted units cannot be Steadfast.

Crown of Command now instead grants a re-roll to failed Leadership test, rather than the 'Stubborn' keyword.

Standard of Discipline cannot be combined with Inspiring Presence. Meaning that other units that are testing Leadership with the use of Inspiring Presence uses the Generals Ld characteristic without the additional +1 bonus that the Standard of Discipline grants.

Change the wording for the sentence regarding Irresistible Force on p.31 to 'The spell will be cast automatically and can only be dispelled if the opposing Wizard succeeds through dispelling with Irresistible Force. If the spell was cast with Irresistible Force and not dispelled, the Wizard has to roll on the Miscast table when the spell has been resolved.'

If a Wizard used four (4) or five (5) dices when a spell was cast with Irresistible Force, the opponent is allowed to alter the result on the Miscast table by -1 or +1.

If a Wizard instead used six (6) dice whilst a spell was cast with Irresistible Force, the opponent is allowed to alter the result on the Miscast table by -2 or +2.

All buildings (Including Fozzriks Folding Fortress, Rock of inevitability etc) may NOT be garrisoned and are always counted as Impassible Terrain.

Cannons that hit a ridden monster must randomize between the monster and the rider and the cannon will only hit one (1-4 monster, 5-6 rider).

Tiktaq'To may join units of Terradon Riders.

f.a.q.

All current WFB FAQ's available from Games Workshop/ Forgeworld will be used at this event alongside this document. If this FAQ or comp pack contradicts any rules found in one of those FAQ's this document takes precedence.

Khaine Magic will NOT be used.

Terrain pieces that are either classified as Impassible or as a Hill is considered to be infinitively high and any models standing behind such terrain pieces are considered to be obscured for the purposes of checking line of sight.

True line of sight will be used, except for the purpose of checking line of sight behind impassible terrain or hill terrain.

Open ground does count as terrain for the purposes of the Curse of Anraheir spell.

Birona's Timewarp cannot increase a unit's movement value above 10, so max march would be 20 inches.

The wizard who miscast cannot get a Look out Sir from damage from a miscast template.

Cannon balls MUST be able to see the spot where they are being placed when firing. Cannons cannot be fired at a target that cannot be seen (if you can't see it, then you don't know its hiding there!)

Cannon balls cannot bounce through impassable terrain or buildings.

A model in a challenge cannot be affected by any enemy breath weapons or impact hits done by models from outside the challenge.

A Character model may make way at the start of any round of close combat.

Ironcurse Icon works against all Weapons that fire like a War Machine.

Immunity to Killing Blow also gives immunity to Heroic Killing Blow.

A model with Always Strike First and with equal or higher initiative than an enemy model with Always Strike First and Always Strike Last will get to re-roll to hit rolls in close combat against that model.

If the general character model is killed but his mount survives you still receive the +100 vp for killing the general, and the fortitude points for slaying the general; although you do not receive the victory points for the cost of that model.

The Tally of Pestilence has no affect while Epidemius is held in reserve.

If 2 characters have incompatible base sizes to the unit they are joining then they are placed on either side of the unit. A 3rd character with an incompatible base size may not join the unit.

If an attack that inflicts multiple wounds hits a unit with multiple wounds, you roll to determine the number of multiple wounds inflicted one dice at a time. Wounds do not spill over. If a model in the unit has already lost wounds; wounds caused must be allocated on to that model first. For example: A unit of ogres takes 3 successful wound rolls from a multiple wound (D3) attack. They fail all of their armour saves. So you then roll the first multiple wounds dice, inflicting 2 wounds onto the first Ogre, leaving him on 1 remaining wound. The second multiple wound dice is then rolled, inflicting 3 wounds. The Ogre on 1 remaining wound is removed from play by this attack and the 2 excess wounds are lost. You then roll the final multiple wound dice, scoring a 1, wounding a second ogre once.

The item Chalice of Blood and Darkness cannot be used between casting and dispelling a spell.

All mounts, except ridden monsters, are ignored for leadership purposes for the Spell Treason of Tzeentch. In the case of chariots the creatures pulling the chariot and the chariot's leadership are ignored.

Hits from the Reign of Chaos are always treated as having hit the front arc of the targeted unit.

Only 1 character may charge out of a unit per phase.

Virtual Pivoting is NOT allowed.

The Battle Standard Bearer may take mundane items available to normal heroes of their type

f.a.q.

Hits from magic missiles are treated as a shooting attack for the purposes of calculating if a lone character may make a 'Look Out Sir!' roll.

When casting a Magical Vortex the caster must nominate a direction in which the template moves. When doing this the direction in which the template travels must remain inside the casters' front arc.

The Spell Penumbra Pendulum (Lore of Shadow) may target units that are engaged in close combat.

The spell Drain Magic (Lore of High Magic) ends the cumulative effects of the following spells: Wither (Skaven Spells of Plague) and Plague of Rust (Lore of Metal).

The -1S from the Blizzard Aura special rule for Frostheart Phoenixes does not stack.

The High Magic Lore Attribute increases all Ward Saves as well as all conditional Ward Saves a model may have. If a model only has conditional Ward Saves then it also receives a 6+ Ward Save.

The Banner of the World Dragons 2+ ward save may not be taken against Arnzipals Black Horror, as this spell does not cause wounds, it removes the model from play.

The army list does not need to state any Lores for Alarielle. She chooses her Lore(s) at the start of each game as per her special rules.

The army list must state if Teclis is using High Magic or Battle Magic. If you are choosing Battle Magic then Teclis may pick his spells at the start of every game.

Models with the Predatory Fighter rule may benefit from it when fighting from the second or subsequent ranks.

Piranha Blade only gives Multiple Wounds (D3) Special Rule while being used in close combat.

Burning Alignment and The Deliverance of Itza target all enemy units within the specified distance of the spells. This applies even if the enemy unit is engaged in close combat or in the rear/flank arc of the model casting the spell.

Daemonic characters with more than 1 magic weapon can only benefit from the effects of 1 weapon at a time. They must declare at the start of the player turn which weapon the character is using; any other magic weapons have no effect whatsoever for the duration of that turn.

The Cauldron of Blood does not allow re-rolls on ranged attacks or spells.

A model with Hatred (High Elves) has Hatred against all models taken from the High Elf Army Book.

Ward saves from Magic Resistance may not be taken against Arnzipals Black Horror, as this spell does not cause wounds, it removes the model from play.

The army list does not need to state any Lores for Morathi. She chooses her Lore(s) at the start of each game as per her special rules.

A shot from a doom diver war machine may never hit more than a single unit; if two units are struck by a doom diver marker the controlling player decides which one they hit. (This is to avoid issues with the size of the marker etc). If a War Machine is hit as a result of a unit of Squigs 'exploding', hits are distributed against the toughness of the War Machine not the crew.

The Skaven Spell Cracks Call may be cast into combat and through friendly units as it does not have a target.

Other Skaven Spells may not be cast into combat unless they specifically say so or mention it in their description.

A charging Skaven unit that has moved forward d6 inches as a result of a Screaming Bell allows no charge reactions.

The army list does not need to state any Lores for a Skaven Grey Seer or Verminlord as they can freely mix Spells of Plague and Ruin as per their special rules.

f.a.q.

A Hellpit Abomination that has had its strength reduced or increased will use the new strength when working out any of its special attacks.

Doom Rockets are treated as a shooting weapon for the purposes of firing them.

When making their special movement attack, Hexwraith models measure distance moved from starting point, to enemy unit they are attacking and back to a legal position. The distance moved cannot exceed their movement value or double this if they marched. They may reform inside an enemy unit.

Death Shriek and Ghostly Howl are not considered shooting attacks.

You must show your opponent your 'pool' of summonable models at the start of each game; you may not share models or borrow from a friend during the game.

Summoned units are NEVER scoring units. (Please note : no part of the model may take more wounds than it currently has remaining.)

Wood Elves armies may duplicate their enchanted across more than one unit. If you chose to mount the sisters of Twilight on Gwindalor, then treat them as a ridden monster for the purposes of attacking them or allocating/ randomising hits on them. For any other purpose treat them as monstrous cavalry as per their army book entry.

Soul Feeder may NOT be used to gain wounds back from both Stomps and Breath weapon attacks.

A second Rune of Spellbreaking may be used on bound spells cast by models which are not wizards, however the spell is not lost on the roll of a 4+.

Units may always be attacked through a champion.

One character per unit may take a Look Out Sir! roll from the following spells: The Dwellers Below, Final Transmutation, Curse of the Horned Rat.

The unit which includes the Virtue of the Impetuous Knight may declare a charge on a unit as long as it is possible to make the charge with the additional D6" granted by the Virtue.

Any model positioned on the flank of a unit in the Lance formation may only direct attacks at models which would be eligible targets of the knight in the front rank directly in front of them.

Models with the Loremaster special rule do not randomly generate their spells before the start of the game.

If a model loses the Loremaster rule during the game they randomly generate their spells at that point, following all the rules for spell generation (e.g. no two wizards may know the same spell unless it is a signature spell).

Any items possessed by a hidden model have no effect until the model carrying them is revealed.

A character may not leave and join the same unit in a turn.

Kairos Fateweaver may reroll one dice per game turn.

The general's Inspiring Presence can be used against Spirit Leech, even if he is not in the unit being targeted.

Morghast Harbingers and Morghast Archai lose Undead and gain Nehekharan Undead when taken in a Tomb Kings army.

Code of Conduct

The most important thing is that you are always polite and respectful, that you never lie or cheat, and that you always strive to ensure that both you and your opponent have fun!

Always be in time, with everything you need to play your game. (Dices, templates, army, rule books, et cetera...)

Always show respect to your opponent, both prior and after the game. Id est: wish them good luck, offer a shake of hands.

Avoid bad tone, swearing or other behaviour which might be perceived as offensive or unpleasant.

To the best of your ability, explain your army, what it includes and any other OPEN information.

Be precise when measuring and moving your models.

Use dice that are easy to read and allow your opponent to see your rolls. Always remove dice that are 'misses'. Any dice rolls that land on the floor do not count and **MUST BE RE-ROLLED**.

Remind your opponent about any rules/phases/models/et cetera that they seem to forget, such as moving a unit or special rules like re-rolling to hits. Especially if it benefits your opponent more than it benefits you. Strive to play a fair game.

Never stall the game; make decisions within a reasonable time frame and then stick to them.

Avoid disturbing your opponent during their turn or when they are trying to concentrate. As much as possible, stay at the table during their turn so you can respond to questions or events.

Never complain about your own bad luck or your opponent's good fortune. Also, never diminish your opponent's accomplishments.

Never rig the outcome of a match.

You commit to playing 5 matches, 3 on Saturday and 2 on Sunday. You are also expected to play these matches to the best of your ability. "Rage quitting" is not allowed.

You commit to listening to and follow the organizers directives. You do not have to agree with them, but during this tournament, the organizer's word is final.

Failure to follow these simple directives will result first in a warning. Continued non-compliance will result in being banned from future events.
