INTERIOR DESIGN

# SENSE AND MOTORIC

Danish design Multi Build with several functions offers play, immersion, activity and relaxation.

Multi Build contains two fold-out mattresses that can be taken anywhere. The folding mattresses can be used as a chair, mattress or just for play.

Multi Build can be folded together as a sofa, massage bed or in different building seating positions according to your own needs. It is also used as an activity pool with balls or just plain play.

In addition, it also offers pure relaxation. A product that does not take up much space, which makes it easy to move. Size 200 x 150 cm when folded out. The product is easy to maintain and clean, as the material is made of PU.

Comfi Sence Rolls provide security and can be used as a child's hugging friend. It can be adjusted in weight and is easy to clean.

At Comfi Sence Rolls, there are two pockets where you can add your own senses or sand pads to achieve your weight as needed.

The ultimate pillow for adults and children. Soft and comfortable material with filling of the right KROYER balls, which adapt to the body during use.

Used for sensory chairs with multiflex, ready to take with you wherever you are - whether it is in bed, chair or sofa or in class. Can be used in nursing homes for the elderly, schools, institutions, clinics etc.

Available also in antibacterial material.

Danish design Multi Flex with several options. The chair is used for relaxation, contemplation and activity.

A chair that you can take anywhere, both indoors and outdoors, which is made of foam and PU.

As you lie in the chair, the sides shape to your body and create a safe environment.

At the back there is a zipper that can be zipped down and the chair can be folded out like a mattress.

Young children can lie on it as a changing mat and children in kindergarten can use it as a sitting mat.

The chair with several functions.

Take a seat in the soft chair and immerse yourself in your own thoughts. Place sandbags in the pockets to achieve the optimal weight in the collar.

The collar can be zipped up and adapted to your sitting position or removed completely and can be used as needed. The collar can be zipped off and used as a pillow or back cushion and the back can be removed and used as a mattress.

The two black support pillows can be added for extra support for the sides, back or neck, for good seating comfort.

The material is made of PU, which makes it soft and comfortable.

Without sandbags

Danish designed Comfi sence vest gives children and adults comfortable. Small sandbags allow you to choose the weight yourself as needed. Easily breathable material with 45% beaver nylon / 55% cotton and can be washed at 40°.

The material adapts to body temperature and can be used with or without filling.

We focus on making a natural and sporty vest that everyone can use.

It is used for children and young people who have restlessness, distress in the body, difficulty concentrating or reduced body sensation and can alleviate distress, stress etc.

The product is used for therapists, schools, training, clinics. The vest can also be used for people with Parkinson's, multiple sclerosis, dementia, ADHD etc.

Available in several sizes from 4 years - XL and weight adjusted when purchased.

**PLAY AND LEARN**

Danish designed Pouf, where we focus on comfort and activity. Whether you are in a classroom, at the library or playroom, you get a nice soft mat to sit or play on.

The colorful mats provide a positive and cozy environment and promote creativity.

The pouf is used for schools, institutions, clinics, libraries, waiting rooms, shops etc.

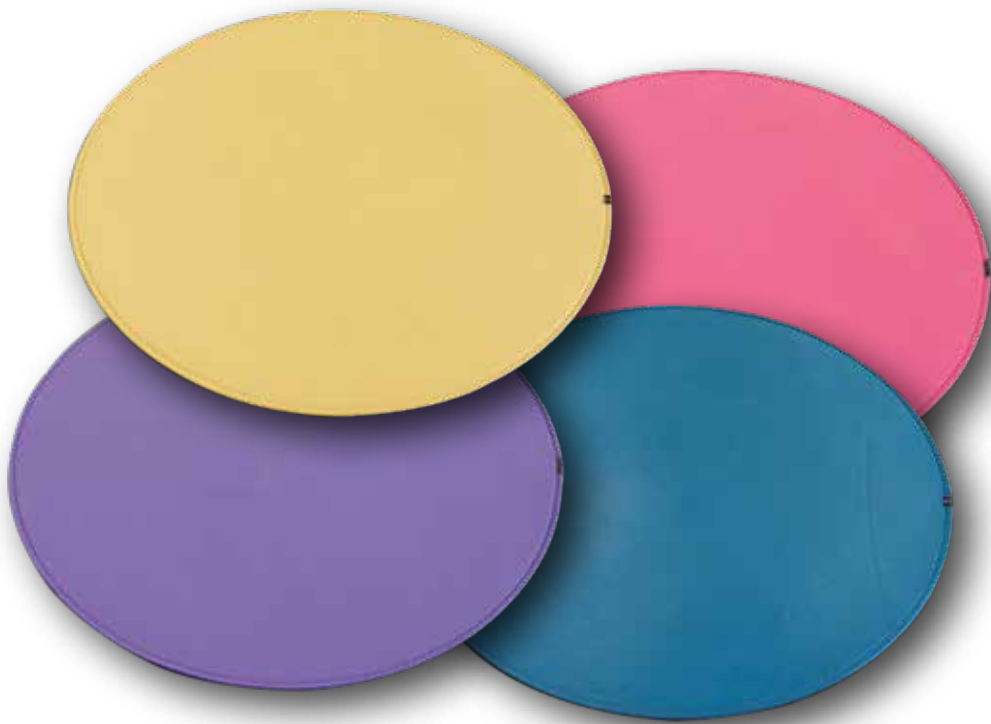

Choose your own color in PU, which is soft and comfortable.  
Size Ø42 x H42.5 cm

FACE:IT

HMØRMÅLEREN

Face It is Danish design and focuses on expressing the right words and feelings.

The box is an educational tool for adults who work with children's emotional development. It is used for children from 3 years, as well as their parents and educators.

The face has removable magnets so that different facial expressions can be made that allow the child to express themselves.

Mount the magnets on the wall and then put the pieces on and you're ready to play Tic Tac Toe. The material is made of Perspex, which is FKM approved.

The game is Matt Black and easy to clean with plain water.

Tic Tac Toe invites you to play, bring joy and smile. Beautiful and decorative to the wall and easy to maintain.

A game that never needs to be unpacked. Who will take the dishes or something else - Take a quick game and see who wins.

The game is suitable for institutions, schools, hotel, business, corporate gifts, clinics and home.

The cute, handcrafted wooden animals can be used for crawling and sitting and will enhance both motor skills and imagination. In addition, it is a decorative element for the playing area.

The animals are available in different styles and sizes and are suitable for children aged 2-10 years old.

They are used in nurseries, preschools, kindergartens, schools, after school care, libraries, hospitals, waiting rooms, clinics, amusement parks, indoor play parks and children's rooms.

The rocking versions have the approval DIN EN 71.

The other styles have the approval DIN EN 1176.

The horse is available in a natural version for indoor use and an oiled version for outdoor use.

Approved for a maximum load of 100 kg.

Table and bench sets are Danish designs used for institutions, clinics, schools and outdoor areas. Table and bench sets are available in three different materials.

1. Oiled pine planks
2. Weather-resistant film-coated veneer sheets.  
This is great if the kids like to draw at the table.
3. Highly supported recycled plastic planks.  
This gives you a 100% maintenance-free table.

We listen to your thoughts and ideas and in collaboration we create exactly the result you want.

We have competencies in everything from idea development and 3D drawing to planning and execution, and we have a wide network of the most talented manufacturers as partners.

For more information, please contact us and we will help you develop solutions tailored to your needs.

We are looking forward to hear from you...

The Danish designed nests are eye catching furniture adding character to all sorts of spaces - both outdoors and indoors. The nests can be used in children's areas as swinging hide-aways, for wellness and pool areas, in the living room, the garden etc.

The nests are made of volcanic basalt extracted from lava and coated with a soft touch polyurethane, Line X. The unique materials are both super lightweight and extremely strong, heat and sound absorbing, UV-resistant and resistant to sand, chlorine and salt. Therefore, they are suitable for year round outdoor use.

The nests are approved for 350 kg.

**Danish crafts and design**

Danish Comfort is founded and owned by Anja Pedersen.

A co-operation with Danish Comfort is based on creating a relationship of trust with our customer in focus. The foundation of our company is quality and credibility.

It gives me great pleasure and satisfaction to help my customers find the best solution and create joint results. A positive contact with our customers creates confidence and opens for a close dialogue and a co-operation where we together can develop options and solve specific assignments.

With creative and competent persons, we develop our own designs with our own crafts people and producers from Denmark. With our customers we can realize special assignments, e.g. establish and arrange rooms, offices, schools and hotels or we can help design new products.

Danish Comfort also imports products, furniture and applied arts that live up to our high standards of quality, functionality, design and price.

All designs from Danish Comfort is design protected.
