INTERIOR DESIGN

Senses and motor skills

We have been all the way round sense and motor skills in our product line for children and adults within the autism spectrum, ADHD, PDD and others with sense modulation or behavioral dysfunction.

Ergonomics, functionality, and good quality have been the key words for us in the development process of the multifunctional qualities.

Danish design - made in Denmark

Comfi Sense Chair

Comfortable chair made of PU without phthalates. The upholstery is made of soft foam, which provides good seating comfort.

The chair's collar with weight stimulates the body's senses and thus reduces stress and restlessness in the user.

The collar is mounted on the back cushion with a zipper and can therefore be removed and used as a hug pillow with or without the included weight bags as needed.

The weight pads are made of nylon and contain sand only.

Comfi Multi flex

A soft and practical chair that can be used as a day bed, chair, relaxation and play.

The voluminous cushion embraces the body and gives the user immediate sense of comfort and ease, which makes the body relax.

The chair is made of cleanable PU without phthalates and only weighs 2 kg, which makes it easy to carry. Perfect for kinder gardens for listening to a good story or for a rest.

Comfi Sense Vest

The sense vest is suitable for children and adults with anxiety, difficulty concentrating and stress and is used in schools, kinder garden, shopping centres or when you are on a family outing. Available in size 4 years to XL weight adjustment available from 1 to 5 kg.

Designed in washable black nylon and cotton, the sense vest looks like a normal vest so nobody will stand out.

The weight pads included gives you possibility to adjust the weight load as you prefer. Different from other sense vests the weight pads are placed equally all over the vest and not only on the shoulder and neck area.

Comfi Sense Blanket

With its softness and hugging effect the blanket has a relaxing and de-stressing effect that gives ease and balance.

The nice blanket is available in washable nylon or PU without phalates which is easily cleaned with a damp cloth.

The sand bags for adjustment of the blanket's weight can be purchased in the desired bulked weight from 1000 – 5000 g.

Comfi Carlo

Take Carlo on a trip

Carlo is our little hand friend that gives a sense of comfort and is a true friend that is good for playing or just for a little chat.

Carlo follows you everywhere, in the class room, by the dining table or when shopping, where he will help you be keeping calm and concentrated.

Comfi Carlo is made of PU without phthalates easy to clean with a damp cloth.

Comfi Multi Build

Multi Build can be used as a soft and secure environment for play and immersion.

Can also be used as a nice sofa, a relaxing massage bed, a cozy chair or as soft mattresses for resting.

The sides are stabilized by a wooden board between the foam upholstery.

Comfi Multi Build is a multifunctional activity basin made of flexible foldable sides in one piece and 2 mattresses that can be used as base.

Like all our other products in the series Comfi Multi Build is made of cleanable PU without phthalates.
