#### About Us

Deacon Design's holistic approach helps to create landscapes that are based on sound environment science and more importantly, are understood and cherished by the people who live, work, and play in them. We provide a full landscape design service from concept sketch, right through to site implementation and aftercare management.

Our continued success is born from our personal approach and passion for creating design solutions that bring 'Landscape to Life' and help reconnect people with the environment.

Deacon Design recently turned five and we are now looking to drive our ambitions for the next five years and beyond.

#### The Role

Develop new ideas alongside fellow design team members and consultants from concept to completion.

Prepare 'sketchy' hand drawn or computer-generated designs to support the development of design options across a range of sectors.

Liaise with clients and fellow design consultants to ensure a collaborative approach.

Help prepare client presentation material using Adobe Creative Cloud graphics.

Carry out site visits to gather site analysis findings and support landscape and visual assessment work.

Assist with the production of planning and technical drawings using AutoCAD / Keyscape software packages.
