## DISGROBEL High Yield Sunflower Oil

DISGROBEL 100% High Yield sunflower oil is designed to optimise its use in deep fryers. Our High Yield oil lasts 2 times longer than normal sunflower oil. Thanks to its stability at high temperatures (smoke temperature of 220° C) and the fact that it can be re-used several times, it is one of the best performing oils on the market.

Specially designed for professional catering kitchens and bakeries, it adds neither flavour nor odour. In deep fryers, it offers high performance thanks to its stability at high temperatures, reducing foaming thanks to the addition of a natural anti-foaming agent.

This is the most widely used seed oil in Europe, rich in vitamin E and linoleic acid. It is obtained by refining crude sunflower oil, the free acidity of which, expressed as oleic acid, does not exceed 0.2g per 100g. The result is a smooth, well-balanced oil, suitable for all types of frying, sauces and cooking.

Its characteristics comply with those laid down for this type of oil by current European Union regulations. It is allergen-free and GMO-free.

Sizes: 25 litres, 10 litres, 5 litres
