Welcome to the EACPT HYBRID CONGRESS

Dear Sponsors and Exhibitors,

As the current and the past-chair of the EACPT, and the chair of the local organizing committee respectively, we would cordially like to invite you to participate in the 15th Congress of the European Association for Clinical Pharmacology and Therapeutics which will be held in Athens, Greece, 25-28 June 2022.

The first congress of the EACPT took place in Paris in 1995 and was followed by a very successful series of meetings across Europe, bringing together scientists from all over the world in fruitful and enjoyable encounters. At the last congress in Stockholm in 2019, we had an attendance of more than 500 delegates from 50 different countries. With the upcoming hybrid congress in Athens, we aim to surpass these numbers. The theme of the Congress will be "*Clinical pharmacology, now more than ever*", addressing all current issues in modern therapeutics, from new diseases to personalized treatment approaches.

Clinical pharmacologists embrace large domains and use many tools, from a molecular perspective on drug-target interactions, all the way through to individual patient care, patient group needs, and epidemiological and global considerations for the safe and effective use of medicines. Among these tools, emphasis will be put on -omics and biomarkers, artificial intelligence and innovative clinical trial designs, among others. We will also be paying particular attention to orphan drugs, drug repurposing, special populations, ICH guidelines, regulatory pathways, as well as COVID-19 pharmacologic issues.

The programme of our Congress (see preliminary version below) will include an exciting mixture of key notes, workshops, debates and scientific presentations. Clinical Pharmacologists will all come together, share knowledge and discuss how they can use innovative tools to solve the many challenges of modern health care, e.g. population ageing worldwide, increasing prevalence of chronic diseases, new possibilities to treat the critically ill, health care sustainability, antimicrobial resistance and new viral threats to mankind.

Athens is a worldwide destination with attractive sites, fantastic weather and a pleasant lifestyle that will certainly function as a magnet to attract many scientists. There will be the possibility to participate in person in Athens or via the EACPT virtual Congress platform, or both. Our virtual platform is a state-of-the-art system that allows interaction between delegates and is very user friendly. Our sincere hope is that you will join us in this adventure and contribute to make this an exciting and successful congress, for the sake of our patients, both now and in the future!

Sincerely yours,

Professor Pierre Marquet

About EACPT 2022

The European Association for Clinical Pharmacology and Therapeutics (EACPT) is a learned society in the field of clinical pharmacology. It is the leading society in Europe serving the European and global clinical pharmacology and therapeutics community.

The EACPT includes all national organisations for clinical pharmacology in Europe and also have nearly 600 individual associate members from all around the world. EACPT provides educational and scientific support for the more than 4000 individual professionals interested in clinical pharmacology and therapeutics throughout the European region, with its congresses attended by a global audience.

Why attend EACPT 2022

The European Association for Clinical Pharmacology and Therapeutics (EACPT) includes all national organisations for clinical pharmacology in Europe. This broad range of knowledge and outreach enables each EACPT congress to provide an unparalleled educational forum where you will learn about the newest developments, innovative technics and advanced practices in topics such as drug discovery, drug development, pharmacology and pharmacotherapy.

The 2022 congress takes place in Athens, Greece and virtually and gives you the unique opportunity to network with and learn from top ranking global specialists in pharmacology and pharmacotherapy. The theme of the congress is: ***“Clinical pharmacology. now more than ever”***.

Attend EACPT 2022 because of the:

- Diverse group of international delegates including health professionals, clinical and life scientists, policy makers, regulators and professionals from the biotechnology and pharmaceutical communities.
- The focus on present and future health care challenges and clinical pharmacological tools to meet these challenges.
- Sessions on hot topics such as translational medicine and pharmacogenetics, advances in personalized diagnostics to improve the safety and effectiveness of medicines, therapeutics of cardiovascular, cancer and inflammatory disease, clinical trial design and regulation, drug safety and toxicology in all patient groups, clinical design and governance, health policy and safe prescribing.
- New research on biological approaches to disease and other current issues.
- Broad spectrum of specialists to learn from including basic to clinical pharmacology and pharmacotherapy from drug discovery to regulatory affairs.
