

The logo for COAIR features a stylized white symbol on the left, resembling three horizontal bars of varying lengths that curve to the right, followed by the letters 'COAIR' in a bold, sans-serif font. The 'CO' is white, and 'AIR' is a light blue color. A small 'TM' trademark symbol is positioned to the upper right of the 'R'.

COAIRTM

CORPORATE
PROFILE

Founded in 2018, after recognizing a unique gap in the market where clients were searching for imported items with a high-quality build and attention to detail & accuracy but required a local capacity to respond with lightning speed to ever-changing site and market demands.

And it was there that we discovered our fortune.

Introduction

ECOAIR, an ISO-14001- ,9001, and 45001 certified brand, is a young and ambitious UAE-based manufacturing and trade business that specializes in the HVAC R industry.

Our primary focus is on customized products and services for each customer. Because each customer has a unique challenge, each system is individually created. We specialize in the design, manufacture, installation, commissioning, and maintenance of various HVACR products.

Products such as Air Handling Units, Condensing Units, Fan Coil Units, Commercial Kitchen Hoods, Ecology Units, Demand Control Ventilations, Air Purification & Filtration Products, Heating or Cooling, and Recirculation Systems, Wet Scrubbers, and so on are part of our eco-system, as are services such as MEP designs, consultation, site services, and annual maintenance.

We serve to fulfill the needs of our client based on the requirements and site constraints. Currently serving the Middle East and Eastern Europe markets, with the vision of expanding globally. We thoroughly grasp the diverse HVAC sector as we are led by a young and experienced leadership team. We work collaboratively with Contractors and Consultants, providing them with our full assistance in completing their projects on time and to budget.

Together we serve for better future.

A woman in a white dress stands in a lush green forest, her arms raised in a gesture of connection with nature. The scene is overlaid with glowing green energy lines and a white geometric shape, suggesting a blend of nature and technology.

Sustainability has become increasingly important, with the demand for environmentally friendly solutions at an all-time high.

As a result, we as engineers & innovators have come together to develop sustainable engineering solutions that do not compromise our natural environment.

Vision

Increase our global exposure by offering better and more innovative products and customized solutions.

Mission

Ensure an eco-friendly environment with suitable engineering design solutions of the finest quality.

Motto

We value strong, long-lasting business ties built on trust.

BEYOND INNOVATION

Strengthening Leadership

We look up to a vibrant tomorrow with our unceasing effort today, drawing inspiration from the paths we travelled yesterday.

NIRMAL K V
MANAGING DIRECTOR

We are a dynamic company committed to ensuring first class services to our clients.

Earlier, during the period of 19-2018, we noticed a unique gap in the market where most of the clients were looking for imported products with a high-quality build and attention to detail and accuracy, whereas they needed a local ability to react with swift speed to ever-changing site and market needs. And there we saw our fortune.

We are committed to providing an unmatched client experience with our products and services, catering to their specific needs with the same swift assistance. We entertain bespoke designs as well as improvised solutions that can help our clients' specific requirements.

With our team of young and aspiring employees, we aim for a bright future where we can offer our clients the best, as well as quality-driven products adhering to all local and international standards. Along with our commitment to quality, we are committed to the preservation of the environment we live in.

Sales & Distribution Network

As a leading air conditioning and ventilation company, we are committed to delivering excellent solutions that improve human experiences and lives worldwide.

The EcoAir family, a varied multinational with headquarters in Dubai, has over 17 sales and distribution facilities active in about 80 products worldwide. EcoAir advocates comfortable and sustainable living on the foundation of innovative technology as a manufacturing pioneer that creates a wide range of products and solutions.

Today, the world has become a single global market, and we continue to face new obstacles as we strive toward our goal.

Quality

ECOAIR, adhere strictly to local and international quality and safety standards.

Our Quality, Health and Safety Policies underline the importance of an incident-free environment.

At ECOAIR, we are committed to the health and safety of our employees, and continuously strive to improve our quality standards to meet the international quality requirement. The level of quality assurance / control, environmental, health and safety are essentials to meeting ISO compliance requirements.

We are proud holders of international accreditations and carryout our procedures in accordance with **ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018.**

ECOAIR is partnered with TICA Climate Solutions Co. Ltd., for providing complete range of HVACR solution, making us one-stop shop for all the items.

TICA is a hi-tech enterprise specialized in R&D, manufacturing, sales and services of air-conditioning and refrigeration products. Established in 1991, it has developed into one of the top four Chinese air-conditioning brands, with 5 factory bases, and a network of over 70 sales and service filiales around the world.

TICA has made huge investment to build the top-notch central air-conditioning R&D and production base, credited as the state enterprise R&D centre. Certified by CNAS, it serves as a national R&D public service platform.

Partners

TICA produces over 30 series of products, covering AHUs, VRFs, screw chillers and centrifugal chillers, diverse enough to meet various requirements with regards to comfort and manufacturing processing application.

TICA is a strong competitor in chillers and commercial air conditioning products. It also serves to specific industries such as micro-electronics, surgery operation room equipment and biopharmaceuticals.

ECOAIR represents TICA for the middle east business.
