

PRODUCTS DESCRIPTION

SANI 100 Pur-Eco / W1b

Product for washing toilets

We should use it very carefully, only to wash inside the toilet bowl.

Do not use it on other surfaces, especially natural stone such as marble or granite..

Strongly caustic, may irritate the eyes!

Sprint 200 Pur-Eco / E1b

Universal product

By adding it in a bucket of water, we are using it to wipe the dust in all rooms and also to clean floors which do not need special dedicated products. (tiles, glossy panels)..

We can also use a small amount by dosing on a wet sponge and use this form to scrub all surfaces and fittings in the bathroom and kitchen.

Sani Acid / W3f

Scaling remover

We have to use it very carefully!

Never use it directly on the surface from which you want to remove the scale , but always dose it on a wet sponge!

Do not leave it on the cleaned surfaces, but always rinse up thoroughly after scrubbing.

DO NOT USE IT ON THE BRASS, COPPER AND ZINC FITTINGS, ALSO NOT ON THE COUNTERTOPS AND WASH BASINS MADE OF NATURAL STONE.

Glass Rens

Window cleaner

This spray you should use only for cleaning: windows, mirrors and glass surfaces..

DO NOT USE FOR WIPING DUST OR CLEANING SURFACES OTHER THAN GLASS SURFA. CONTAINS ALCOHOL WHICH MAY MADE DISCOLOR ON CERTAIN MATERIALS.

Cif Professional

Bathroom cleaner

We can use it to clean bathtubs, sinks, toilet bowls from the outside, fittings, steel, ceramics and plastic. Do not leave on the surfaces, always rinse thoroughly after using.

DO NOT USE IT ON THE BRASS, COPPER AND ZINC FITTINGS, ALSO NOT ON THE COUNTERTOPS AND WASH BASINS MADE OF NATURAL STONE.

Klorin Power Mousse

Cleaning product with chlorine

It is really good for cleaning white porcelain kitchen sinks from stains such as coffee and tea. It can also be used on porcelain surfaces in bathrooms to remove mold and disinfect.

Be very careful with application and storage because it is really easy to make damages on the wood, natural stone surfaces and fabrics.

Liva Stenolie

Suma Inox Classic / D7

Stone surface oil

Apply a small amount of the product to a clean cloth or kitchen towel and thoroughly polish the surface of natural stone such as marble, terrazzo, tiles, clinker, granite, etc.
We are using this way on tiles and bathroom countertops.

Attention! Dropping it on other surfaces, such as wood or fabrics, can cause damage and permanent stains.

Oil to metal surfaces

Dose a small amount of the product on a soft cloth or kitchen towel, and then thoroughly polish the previously cleaned metal surface.
DO NOT USE on surfaces that have direct contact with food!
We should use it to polish things such as refrigerators, dishwashers, ovens and sinks.

Attention! Dropping it on other surfaces, such as wood or fabrics, can cause damage and permanent stains.

SURE Grill Cleaner

Grill and oven cleaner

Product is plant-based and we are using it to clean the inside of the oven.

Spray the dirty surfaces, including the walls because the product is viscose and it can stay on them. Leave it for 15 minutes then scrub by the sponge (in the case of a large amount of burnt food, we can use a pumice stone).

The product should be removed from the surface after cleaning with a wet cloth.

Cif Professional Rengøring og Desinfektion

Product for cleaning and disinfection

We should use it in the kitchen to clean and at the same time disinfect countertops and tables.

To effectively disinfect the surfaces, spray the cloth and clean the surface, leave it like that for 5 minutes, then use another clean but wet cloth (only water) to remove the product together with bacteria.

Leaving the product unwashed will make the surface be sticky.

Cillit BANG Degreaser & Dirt

Cleaning and degreasing spray

We are using the product in the kitchen in case we have problems to remove excessive amounts of food fat or burnt food remnants. For the best effect, spray it on a wet sponge, then scrub the surface and leave it like that for a maximum of 5 minutes in case you have heavy dirt.

The product should be removed from the surface after cleaning with a wet cloth.

Cillit BANG Zero Blackmould

Spray for disinfecting and removing mold

For the best effect, spray it with a wet sponge, then scrub the surface and leave it like that for 5 to 15 minutes in case we have heavy dirt.

Do not leave on the surfaces, always rinse thoroughly after using.

DO NOT USE IT ON FABRIC, WOOD, ALUMINUM, METAL, MARBLE, GRANITE, BRASS, COPPER, OLD PORCELAIN, LAMINATED PLASTIC!

Skurestick med håndtag

Pumice stone with handle

Pumice stone for cleaning inside the toilet bowl and in case of heavy dirt inside the oven. Also effective for removing limescale from bathroom tiles.

**WE DO NOT USE DRY PUMICE!
ALWAYS WITH WATER OR SOME PRODUCT, BECAUSE IT WILL SCRATCH THE SURFACES!**

Fugebørste

Brush for cleaning the joints

Convenient brush for cleaning tile joints and hard-to-reach places.
