## Summer is coming, that means vacation time

### We wish you all a nice and relaxing summer

In Sweden and northern Europe we are heading towards summer and vacation period. Emcomp wants to wish all customers, suppliers and partners a really nice and relaxing summer period. Most of all, the Emcomp management wants to thank all coworkers a lot. Merging two companies together takes a lot of time and energy. We have done the fusion between Pulsteknik and Emcomp as a team, and all of you have done a fantastic job. Now we can continue the journey together with many interesting businesses and projects ahead. Thanks a lot for your hard work and now you all deserve a nice, relaxing and hopefully sunny and warm summer vacation.

### Emcomp is closed week 30 and 31

Both office and warehouse in Gothenburg and Örebro will be closed between 22nd of July until 2nd of August. Note that there might be, during week 28 and 29 slightly longer response time than normal due to vacations. We are back to support you as normal August 5th.

## Increased product portfolio

Since Pulsteknik has merged into Emcomp, we have broadened our product portfolio. The core still is the CBI Hy-Mag circuit breakers but now we can also offer a wide range of other products for harsh environments. For example pull wire switches from steute, potentiometers and rotary encoders from FSG, a variety of cable glands from SIB-ADR and different relays from Elesta GmbH. Just to mention a few...

If you are curious about these products or what we can offer in different customized solutions, please give us a call or send an e-mail.
