HEY!

My name is Emile Doorman.

Creative design lead, art director, conceptual thinker, inspirator and senior (digital) UX-designer. As a pragmatic and versatile person, I'm someone who wants to develop myself continuously.

RESUMÉ EMILE DOORMAN

KLEURI

ABOUT ME

My name is Emile, a 36 years young design lead and full of energy! This is needed because currently I'm leading a design team of 20+ digital designers. I think out of the box and aim to enjoy all the little things in life. My passion lies within inspiring, designing, creating, illustrating and animating. In every aspect. Varying from colleagues to customers, digital to print, from user flows to organizing design-sprints to even designing furniture. I get more energy out of sharing my enthusiasm, by collaborating with other (UX) designers, learning from each other and bring our work to a whole new level. 1 + 1 = 3

aim to enjoy the little things in life.

I stay up to date and I get inspired by the latest trends, by going to talks and events, listening to a diverse range of music and traveling abroad. Furthermore I fill in my free time with design/drawing, gaming and building furniture. When the opportunity lets me I love to go deep sea diving. I also like to cook, but my girlfriend can do this 10 times better; although I'm getting the hang of it.
