ERA STRATEGIC PLANS 2022

Basis

ERA strategic plans 2022 build on [ERA Strategy](#).

The working paper of the ERA Board forms the basis between the Strategy and the yearly plans.

The plans from 2019 and onwards are:

1. Provide benefits for our member organisations.
2. Prepare, organize, stimulate and support rambling events and activities.
3. Actively work with physical networks of E-paths and LQT-BE.
4. Establish and maintain cooperation with EU bodies and relevant international organisations and agencies working in fields such as youth and health.
5. Develop and implement a financial strategy.
6. Develop and implement a marketing and communication strategy to contribute to our business model.

From these, ERA will focus on the following in 2022:

Plans 2022

1. **Focus on common interests for walking in Europe.**

   E-paths, see under E-paths WG.

   LQT activities, see under LQT WG.

   Developing the web sites and other communication channels to make them attractive to both MOs and to walkers is important.

   Move *com to internal part of *org.

   ERA is in 2022 continuing building up “ERA Recommends”, which places ERA and the MOs as experts within walking, hiking and rambling.

2. **Focus on exchange of ideas and experiences between the member organisations in ERA, where ERA can be an active and fruitful forum, as well as assisting in organizing regional meetings.**

   ERA will in 2022 arrange regular virtual meetings, see under ERA Sponsoring WG.

   New types of activities like Aqua Walking and Competition activities will be exchange of ideas and experiences and, at the same time an opportunity to establish a good and new relationship between MOs.

   As the AW’s representative to the International Committee of Mediterranean Games (ICMG), which brings together 26 nations from the Mediterranean basin, ERA is the official institution that validates the participation of National Olympic Committees in international competitions.

   ERA is researching possibilities for specific walking activities for the young walkers (for ex. ERASMUS+ project). ERASMUS+ project for youth - goal: investigate the real situation in European countries.
3. Focus on being an active NGO in the European context, to the benefit of both ERA and its member organisation and for walking in Europe

Participation in CoE and EU-institutions has high priority. For example in the CoE focussing on cultural routes including other kind of similar routes in the ERA interest sphere.

MOs could create and maintain relations with national tourist boards, regional destination management organisations (regional DMOs) and local DMOs, especially around path development and potential future EU financing (rural development etc).

Bilateral meetings on topics of interest to neighbouring MOs should be encouraged as well as common walks.
