Article 39 of the GDPR outlines a requirement for staff awareness and training on the subject. Although this is a requirement for organisations, each will have different needs in terms of training depending on the organisation processes and the level of GDPR maturity.

All participants will receive:

- Comprehensive documentation (as a digital copy during the presentation and a PDF file). The client can print the material
- A chronological summary of all GDPR articles with an explanation on each article to ensure the right understanding of the GDPR articles in question during implementation
- Extensive pre-reading material so that the participants are well prepared
- The Copenhagen Compliance® GDPR Roadmap and Framework
- EUGDPR Foundation, Application & Substance (FAS) and Data Protection Officer (DPO) and Practitioner (CEP) training and certification after exam completion
- Participants will receive 35+ templates, IT Tools, policies, documents relevant to the implementation, execution, demonstrating, controlling and monitoring GDPR compliance
- Certificate of attendance with CPE points

The above offer is valid until ten days after the date sent.
