Fire Alarm Systems

No business or home owner can ignore the devastating consequences of a fire breaking out and the possibility of loss of life and property.

Here at Eurotech Security we specialise in designing and installing bespoke Fire Alarm Systems that are tailored to your building structure and purpose. Inline with current legislation we can protect you and your property by installing systems that detect smoke, heat and carbon monoxide.

In addition, we can provide a full service that includes testing and inspecting a pre-existing system to make sure it meets with current fire regulations.
