

Press release:

Everfuel member of Hydrogen Industry Cluster in Benelux

Herning, Denmark, 23 February 2021 – Everfuel has joined the Hydrogen Industry Cluster that is coordinated by WaterstofNet and focuses on the BeNeLux region. This industrial partnership now consists of 70 organizations.

Everfuel is an ambitious and listed (EFUEL: NO) company and supplies hydrogen for mobility applications such as buses, trucks, taxis, garbage trucks and maritime applications. Everfuel has extensive knowledge in the field of hydrogen and has activities in Denmark, Norway, Sweden, Germany and the BeNeLux region. Everfuel has developed an innovative, efficient and scalable value chain in which hydrogen production, distribution and filling stations are integrated and linked in a smart way. This is supported by the "Everfuel Helios big data system". In this way, Everfuel is able to offer prices that are competitive with fossil fuels.

Everfuel is involved in various projects, 34 MW production is planned for 2022 with a growth to 600 MW and +3.3 GW respectively by 2025 and 2030. In terms of supply, the operation of 8 filling stations has already started. In addition, 5 locations have been established and 9 others are under development. In the Netherlands, Everfuel will start supplying hydrogen to 20 Connexxion buses in Heinenoord at the end of this year as part of a contract with the Province of South Holland.
