

Financial Controller

Do you have the motivation and ambition to make the world a better place? Everfuel is leading the way to a future of zero emission mobility using green hydrogen and are in need of dedicated colleagues to join them on their hydrogen journey. Are you the next Everfueller?

Everfuel's mission is to enable European-wide production, distribution and fueling of 100% green hydrogen fuel at prices competitive to traditional fuels. We are growing rapidly and are now looking for a motivated Financial Controller, who wants to join our green hydrogen journey! Is that you?

About the job position

As Everfuel's Financial Controller you will be involved in tasks related to financial accounting and controlling but you will also be involved in business controlling. The responsibility covers from complex analysis and building of models and systems to support the workflow to simple hands-on finance operations. You will support management in finance issues and will be connecting finance to the business growth strategy by driving the development of finance related tasks, processes and tools. You will be part of an entrepreneurial and international company where you have the possibility to influence significantly both strategic and operational. You will have the possibility to grow strong competencies and for the right candidate this will open an interesting career path within the company.

Reporting will be to the CFO and you will be one of two financial controllers. Place of work will be Høgild near Herning, Denmark. You will be part of an ever growing team of motivated people who are dedicated to make green hydrogen for transportation a competitive alternative to fossil fuels – do you want to make an impact on the future? – Then join us!

Your tasks will include:

- Budget and forecast
- Reporting
- Cash Flow
- Optimization of business processes
- Financing
- Business Partnering and Business Cases
- Analysis
- BI and ERP systems
- Models and templates
- Transfer pricing

Requirements

You have a relevant educational background most likely on bachelor or master level (cand.merc.aud, HD(R)) and you are expected to have 3-6 years of experience from relevant jobs for example from accounting og controlling.

You are structured and detail focused and excellent in keeping deadlines. You work in an independent and innovative way defining your path to solid results in the context of company growth. You have good interpersonal skills, you have a service-oriented mindset, and you appreciate a positive, constructive and ambitious working environment. You are highly productive to get things done but still in excellent quality. You are proficient in both written and spoken Danish and English. As a person you are dedicated to your job and you want to make a difference to the world by working in a company that wants to make green transportation possible.

- Relevant education
- 3-6 years of relevant job experience
- Strong IT skills (Office365, MS Business Central/Navision) – Excel super user
- Experience in connecting finance processes to IT
- Experience with IFRS
- Danish and English in writing and orally for professional use

Advantages

- Experience from entrepreneurial environment with steep growth
- Experience with BI
