

25TH INTERNATIONAL EVSSAR CONGRESS - EUROPEAN VETERINARY SOCIETY FOR SMALL ANIMAL REPRODUCTION

27TH - 29TH JUNE 2024

**WORLD TRADE CENTER
BARCELONA**

Technical Secretariat: Grup RiC
Av. Diagonal, 511, 08031, Barcelona
evssar2024@gruporic.com

THURSDAY, 27TH JUNE

16:00 - 19:00

Auditorium - Royal Canin pre-Symposium

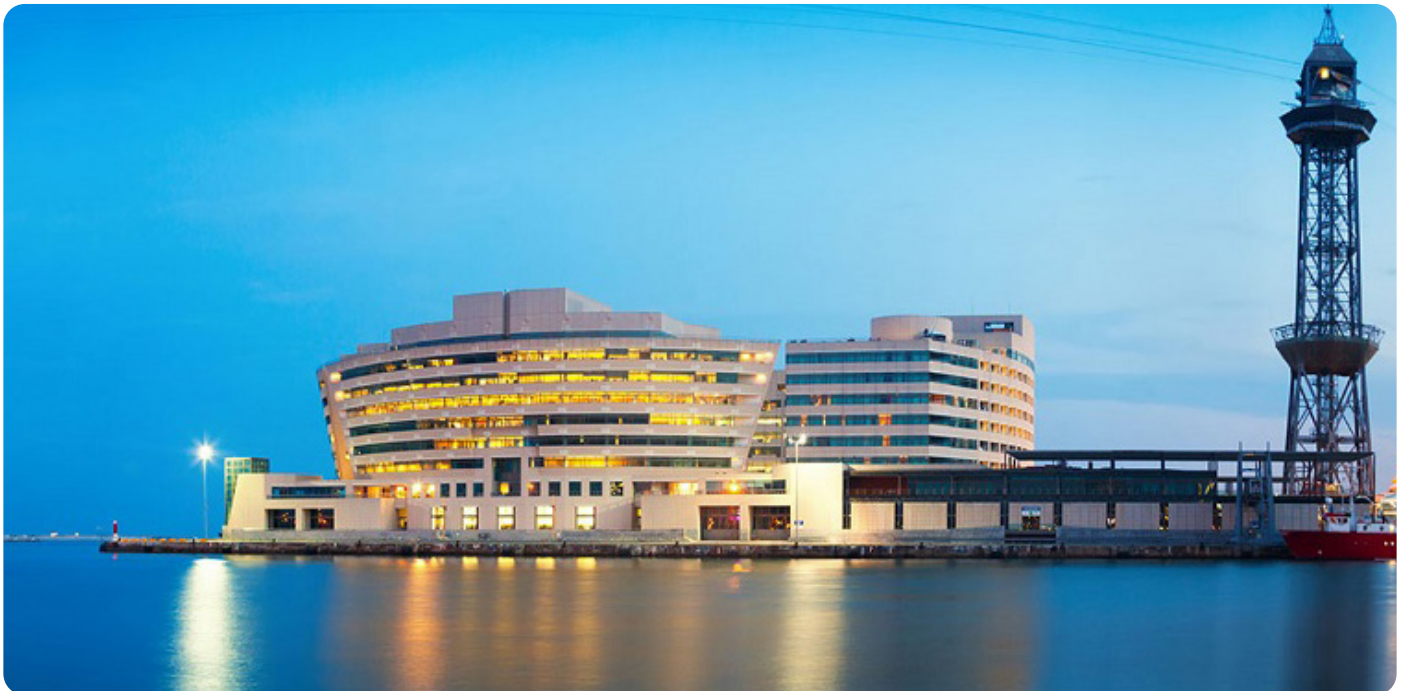

Making the most of the pediatric visit

- Why pediatric visit protocols matter?
Dr. Drabble Eleanor, Ecosystem Strategic Lead, Linnaeus, UK
- Setting up the pet for the best experience at the vet clinic
Dr. Alexandra Moesta, Research Program Manager, Royal Canin, France
- The Royal Canin ready to use tools available for the neonatal & pediatric visit
Dr. Virginie Gaillard, Research Program Manager, Royal Canin, France

19:00 - 21:00

Welcome Reception (*Club - World Trade Center*)

FRIDAY, 28TH JUNE - MORNING

08:00 - 09:00	<i>Auditorium Hall</i> - Registrations		
09:00 - 09:10	<i>Auditorium</i> - Opening Ceremony		
09:10 - 10:00	Keynote 1 - Rebecca Blanchard - Environmental pollutants and their effect on the reproductive status of dogs: Are dogs a useful sentinel of the environmental conditions? - <i>Auditorium</i>		
10:00 - 11:30	Parallel Sessions		
	<i>Auditorium</i>	<i>Room A1</i>	<i>Room A2</i>
10:00 - 10:30	Round table - Andrea del Carro, Maarten Kappen - Semen shipment, legal, practical aspects.	Parallel session 2 - Marco Russo - Advanced imaging in small animal reproduction	Parallel session 3 - Jaume Martorell - Use of deslorelin in small mammal species
10:30 - 10:45	Round table - Discussion	142 - Schrank Magdalena - Post-surgical ultrasound assesment following OE in dogs	5 - Vasetska Anastasiia - Impact of treatment with a GnRH slow release implant and its subsequent removal on spermatogonia dynamics in canine testis
10:45 - 11:00	Round table - Discussion	37 - Batista Miguel - Use of ultrasonography and plasma levels of canine prostate-specific esterase in the diagnosis of prostatic diseases in dogs	67 - Grassi Anna - Clinical use of low dose megestrol acetate treatment in the cats for reproduction control
11:00 - 11:15	94 - Guillaume Domain - Origin and use of frozen dog sperm in the Netherlands and Belgium	61 - Aires Lluís Paulo - Shear Wave Elastography of the Testes and Epididymis of Normozoospermic Dogs - Preliminary Results	39 - Leber Johanna - When neutered male dogs become attractive to other dogs - efficacy of deslorelin implants
11:15 - 11:30	96 - Milani Chiara - Effect of dietary supplementation with salmon oil on canine frozen-thawed semen	116 - Spada Stefano - CT Scan assessment of cryptorchid testes in dogs	148 - Grigoletto Beatrice - Chronic effect of deslorelin on the immune system
11:30 - 12:10	Coffee break, Poster & Sponsor Exhibition - <i>Port Vell Room</i>		

SATURDAY, 29TH JUNE - MORNING

09:00 - 09:50	Keynote 3 - Alain Fontbonne, Stefano Romagnoli - Advances in feline contraception - <i>Auditorium</i>		
09:50 - 11:20	Parallel Sessions		
	<i>Auditorium</i>	<i>Room A1</i>	<i>Room A2</i>
09:50 - 10:20	Parallel session 1 - Sandra Goericke-Pesch - Autoimmune orchitis in dogs	Parallel session 2 - Ada Rota- Seeding and development of canine puppies microbiota	Parallel session 3 - Kurt de Cramer - Timing of caesarean section based on progesterone cut-off : "beyond anecdote"
10:20 - 10:35	186 - Del Carro Andrea- Preserving Reproductive Potential: Penile Reconstruction in a Spitz with Paraphimosis	99 - Leps Anna Sophia- The influence of the canine vaginal microbiome on fertility	13 - Apparicio M. - Comparative evaluation of amniotic cortisol concentration in elective and therapeutic cesarean sections
10:35 - 10:50	183 - Jaineck Helene- Suspicion of primary ciliary dyskinesia with situs inversus totalis (Kartagener Syndrome) in Eurasier dogs	110 - Sowinska Natalia- Towards defining physiological and pathological genital tract microbiota in bitches using Next-Generation Sequencing	32 - Tal Smadar - The genetic secrets revealed from Canine Fetal Fluids obtained in mid-pregnancy
10:50 - 11:05	46 - Furthner Ethienne - Intermittent non ischemic priapism in an eight year old German Shepherd dog	89 - Bertero Alessia- Antimicrobial resistance in Escherichia coli and Staphylococcus pseudintermedius isolated from breeding bitches housed in kennels compared to household bitches	81 - Tal Smadar - Smart Collar Technology Tracks Pregnancy Progress and Predicts Birth Timing in Female Dogs
11:05 - 11:20	161 - Lucas Xiomara- Tubular ectasia of the rete testis in a dog	98 - Goericke Pesch S.- Effect of restrictive legislation on antimicrobial susceptibility in selected bacterial isolates from the canine vagina	86 - Egyptien Sophie - Progesterone supplementation during canine pregnancy: friend or foe?
11:20 - 11:50	Coffee break, Poster & Sponsor Exhibition - <i>Port Vell Room</i>		
11:50 - 12:40	Keynote 4 - Eva Axner - Semen freezing in the domestic dog and cat: overview and new updates. - <i>Auditorium</i>		
12:40 - 14:20	Lunch (<i>Port Vell Room</i>) & General Assembly (<i>Auditorium</i>)		
14:20 - 15:50	Parallel Sessions		
	<i>Auditorium</i>	<i>Room A1</i>	<i>Room A2</i>
14:20 - 14:50	Parallel session 1 - M ^a Cristina Veronesi - Canine neonatology: prediction of puppy survival	Parallel session 2 - Manuel Magalhães Sant'Ana, Paulo Borges- Canine Extreme Breeding	Parallel session 3 - Bernard Roelen - Revisiting the Potential of Induced Pluripotent Stem Cells in Small Animal Research

SATURDAY, 29TH JUNE - AFTERNOON

	<i>Auditorium</i>	<i>Room A1</i>	<i>Room A2</i>
14:50 - 15:05	113 -Bendahmane Ylias- Maternal Oral Supplementation with <i>S. boulardii</i> I-1079 during gestation impacts the newborn puppies' metabolome and growth	95 -Leuchten Simon- Vaginal bands and septa in the bitch- preliminary results of a case collection	63 -Priego-Gonzàles Andrea- Ozonized Oil as a promising treatment for Multi-drug-Resistant Chronic Vaginitis in a Dog
15:05 - 15:20	135 -Chastant Sylvie- Association between parturition process and neonatal outcomes in the feline species	55 -Arlt Sebastian- Dog breeding for extreme conformation - How do students of veterinary medicine regard it?	157 -Mello Martins Isabel- The Influence of proAKAP4 concentrations in cryopreserved ejaculated and epididymal spermatozoa of domestic feline
15:20 - 15:35	33 -Rodriguez Rachel- Neonatal lactate as an indicator of neonatal viability in neonates born from emergency cesarean sections	130 -Ballotta Giulia- Metastatic involvement of the placenta in a pregnant bitch affected by aggressive T-cell lymphoma	83 -Mogielnicka-Brzozowska Marzena- ALB, GPX5 and PTGDS as potential markers of canine reproductive tract ageing
15:35 - 15:50	21 - Gomes-Lourenço Lucia - Effects of immunotherapy with fresh frozen plasma on leukocyte count and troponin I concentration in neonatal sepsis in dogs - Preliminary results		158 - Ochota M. - Puberty and age-related ultrastructural changes in cytoplasmic architecture of feline oocyte
15:50 - 16:20	Coffee break, Poster & Sponsor Exhibition - Port Vell Room		
16:20 - 17:50	Parallel Sessions		
	<i>Auditorium</i>	<i>Room A1</i>	<i>Room A2</i>
16:20 - 16:50	Parallel session 1 -Ilona Kaszak- Mammary tumors in dogs: an update	Parallel session 2 -Dra. Selena Russo- Psychological aspects on Veterinary profession- Understanding Veterinary Wellbeing	Parallel session 3 -Hasan Sontas- Laboratory tests in Repro Cases: An Update
16:50 - 17:05	138 -Chastant Sylvie- Clinical expression and epidemiology of mammary masses: comparison between feline and canine species	60 - Being a Veterinary Doctor: A Qualitative Study Exploring Veterinary Doctors' Perspectives	159 -Ochota M.- The first report on umbilical cord blood gas parameters in kittens delivered by Cesarean section
17:05 - 17:20	58 -Martins Mariana- In situ mammary gland carcinoma associated with a SCT with high metastatic potential in a cryptorchid German Shepherd Dog		68 -Posastiuc Florin- Anti-Müllerian hormone expression in feline retained and normal testicles: structural and functional insights
17:20 - 17:35	160 -Lascialfari Petra- Congenital uterine defect, mucometra and mammary neoplasia in an English Pointer bitch		172 -Cortes D.- Evaluation of diagnostic tests for canine leucospermia
17:35 - 17:50	88 -Vallesi Emanuela- An unusual case of penile vascular tumour in a dog: case report		73 -Campana Francesca- Interpretation of vaginal cytology in queens
17:50 - 18:00	Closing Ceremony (Auditorium)		

WORLD TRADE CENTER BARCELONA

1st Floor Edif. Este, Moll de Barcelona, s/n, 08039 Barcelona

HOW TO GET TO THE WORLD TRADE CENTER BARCELONA

By train: The closest train station to the WTCB is the Plaça Catalunya stop. To access it, take lines R1, R3 or R4 or the regional R12.

By car: Take exit 21 of "Ronda Litoral" (B-10). The WTCB has parking for private vehicles and motorcycles, as well as its own taxi stop.

By public transport: If you travel by bus to the WTCB, take lines V11, 91, D20, H14 or V13 or lines N0 or N6, at night. If you travel by metro, get off at the Drassanes (L3) or Paral·lel (L3 and L2) station.

By plane: From El Prat airport, access the WTCB by taxi or private vehicle via the B-10 (ronda Litoral) to exit 21. If you prefer the bus, take the T1 and D20.
