

- elsewhere in the proximity of the arena;  
iv) not entering the arena at the third call.

#### **4.10 Scoring**

- 4.10.1 A clear round in the time allowed shall give the pentathlete and/or team in Relay 1200 points. All penalty points are deducted from this sum.
- 4.10.2 In case the Riding Event is terminated, the pentathlete will earn 1200 points less:
- i) deduction all of the previous mistakes on the course;
  - ii) deduction of the time penalties, if any
  - iii) deduction of 100 points for each obstacle not jumped in Individual competition and 50 points for each obstacle not jumped in Relay competition of 3 horses/team.
- 4.10.3 When the total number of the point deductions for faults on the course is higher than the number of the points received by the pentathlete or team for the Riding, the overall number of points for the Riding Event equals 0 points.
- 4.10.4 Positions are decided solely on the points scored. If there is a tie the optimal time is decisive. The "optimal time" is the time, which is the nearest one to the Time allowed.
