Once again the Club Nautic La Vila Joiosa prepares to receive our surfski friends.

If last year was special because we celebrated our 50th anniversary, this one too because we have reached the X Edition of the EUROCHALLENGE. This gives us a certain experience, thanks to the fidelity of your presence. In addition, this year the competition becomes a rehearsal for the European Championship of Ocean Race 2018 of the ECA.

In October we celebrate the continental surfski championship under the tutelage of the Royal Spanish Canoe Federation. We hope to see you there.

VILLAJOYOSA

Villajoyosa is one of the most beautiful villages on the Costa Blanca because of its historical center, formed by colorful houses. The city has a rich archaeological heritage and long beaches with blue crystal waters.

The history of Villajoyosa goes back to the Bronze Age. The archaeological studies conclude that it could have been the Iberian city of Alonis.

In the 8th century it was repopulated, called La Vila Joiosa, which means happy city. The reason for giving it that name was to encourage people to live in it, in a dangerous time when it was attacked from the sea.

Our Fiestas, called Moors and Christians, are inspired in those attacks. We celebrate them in July.

Today Villajoyosa lives from fishing, making chocolate (it has several factories), and tourism.

MONUMENTS

Church La Asunción (XVII century)
Watchtowers (16th century)

Playa Bol Nou
Cala l'Esparrelló
La Caleta
Playa el Xarco
VISIT
Puerto pesquero y casco antiguo

Altea

North departure for the race Downwind de 20 Km. Eurochallenge

Known as the "white village", Altea is another scene of the Eurochallenge when the wind is favorable.

Its ancient white town and its viewpoint are known for their charm. They invite visitors to explore its cobbled streets.

Altea has several beaches of very smooth boulders where water sports and aquatics are practiced.

The starter of the Downwind of the Eurochallenge takes place near its nautical club, at the beginning of the seafront.

El Campello

South starter for the race
20 KM. Eurochallenge

The Campello is also the starting point for the main test of the Eurochallenge, the 0 km downwind, when the wind favors starting the course from the south.

It is a very marine town that has been transformed into a tourist municipality of the first order.

It is the town of the province with more kilometers of coastline and its beaches are sandy, being the most famous those of Muchavista and Carrer la Mar
