

Filters

Pharma filters with hand drive stirrer

Diehm filters are designed for easy handling and high effectivity.

- A fast opening system for the lid and the filter allows to open or to close the filter within less minutes.
- The winch elevator allows to lower the the filter with only one hand.
- The hose connectors allows to connedt PTFE hose by hand.
- A simple hand drive stirrer allows to clean the filter surface as needed.

Standard Facilitys

- Stirrer with mechanical seal. Product contact PTFE-PFA-Perfluorelastomere.
- Quick release clamps for PTFE hose at the dosing and outlet flange.
- Manometer for vacuum and pressure
- Bursting disc
- Nitrogen dosing valve

DN	Capacity	Vessel hight	Dimmensions	Single Jacket Article No.	Double Jacket Article No.
150	5 lit.	400 mm	450 x 450 x 1470 mm	34001005411	34001005420
