# BRIEF INTRODUCTION

FREEBEE

FREEBEE

## OVERVIEW

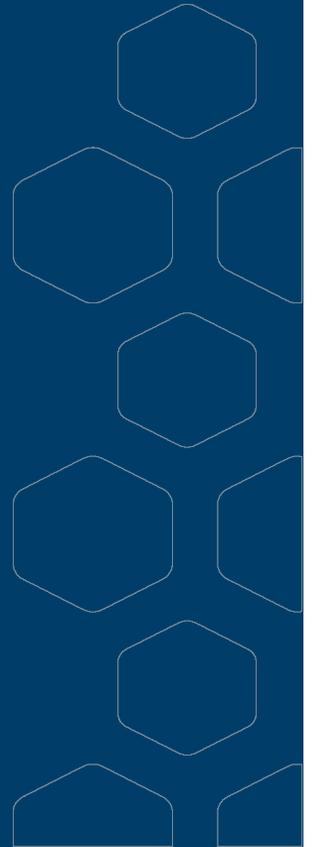

Freebee was founded in 2006 and is based in Nyborg, Denmark. Our target markets are Aluminium, Foundry and Abrasives Industries. Sizing and classification of cryolite and PAF is our main force, as well as providing custom salt-flux mixes to our foundry clients. Our full modernized manufacturing facility produces large volumes of tailor-made materials to our clients in over 30 countries.

Customer satisfaction is the basic for good business and Freebee believes in simplifying the sourcing structure for our clients. We value and develop strong customer relationships, ensuring both smooth communication and timely delivery of high quality products, when they are needed.

# COMPANY PROFILE

FREEBEE

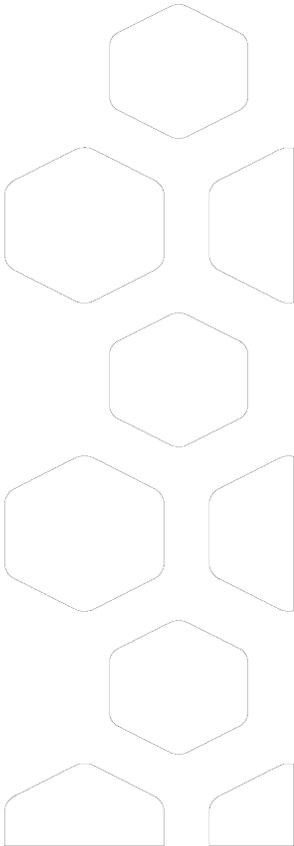

## OUR VISION

To be a leading global supplier of raw materials for the primary, secondary Aluminium and Abrasive industries.

# OUR STRENGTHS

THE REASON TO CONSIDER A PARTNERSHIP
