

QUALITY PRIVATE LIVE-IN CARE
PROVIDER

ABOUT US

Whether it's for you or a loved one, Frias Gate Care Live-in Care services offer a superior quality of care. Our Live-in Registered Nurses and Carers can offer care and support with compassion throughout the day, and night should you need 24-hour Live-in Care.

We collaborate with you and your loved ones to develop a personal care plan that covers any necessary care as well as daily personal activities and household responsibilities. A typical day might start with your live-in care assistant helping you or a member of your family get ready for the day. They might also help you or your family member make breakfast and eat it.

Your carer will then assist you or your loved one with home activities such as shopping, cleaning, and tidying. They are available to accompany you or a family member to any GP or specialist appointments. Your carer can assist with laundry and ironing, as well as changing bedsheets and cleaning the bathroom. If you or a loved one enjoys gardening but is unable to get outside, they may assist with mobility, watering the plants, and replenishing bird feeders.
